# eSNC

## Overview

eSNC is a web-based application that allows financial institutions to submit Shared National Credit (SNC) data in an organized and efficient manner. SNC reporters are divided into two categories: **Basic** and **Expanded**. The primary differences between the two reporter types are listed below:

### Basic Reporter

- Submits an agent file
- Does not submit a participant file
- Only reports SNCs
- Does not report Basel data

### Expanded Reporter

- Submits an agent file
- Submits a participant file
- Reports SNCs and non-SNCs
- Reports Basel data

Respondents may submit data by either manually keying it in or by uploading an XML file.

**Note:** Refer to the SNC Reporting Instructions for more information regarding the differences between Basic and Expanded reporters.

## Logging In

The eSNC application can be accessed through your web browser at the following address:

<https://bsr.frb.gov/SNCEXT>

Please note that the web address is case sensitive. You may experience difficulties accessing the website if the "SNCEXT" extension is not capitalized. Internet Explorer is the recommended browser for accessing eSNC. You may experience technical issues if accessing eSNC through a different browser.

Each institution must submit an **eSNC Access Agreement** to be established in eSNC as a reporting entity. Additionally, each user must submit two forms to be given access to the eSNC application: The **Access Control Form** and the **SecurID Control Form for External Users**. These forms can be found at the following address: <https://www.kansascityfed.org/banking/bankerresources/shared-national-credit>

Completed forms are to be sent to the following mailbox: [kcstatcs@kc.frb.org](mailto:kcstatcs@kc.frb.org)

## SecurID Authentication Procedure

The SNC customer service will provide a username and an RSA SecurID token to you upon receipt of your completed forms. Your 10 character long username will be located on the back of your SecurID token for reference. The SecurID token displays 6 digits that change every 60 seconds.

Navigate to the eSNC website at <https://bsr.frb.gov/SNCEXT> to log in. You will be taken to the following screen:

The screenshot shows the RSA SecurID authentication interface. At the top left is the RSA SecurID logo. The main heading is "RSA SecurID User Name and PASSCODE Request". Below the heading, there is a message: "The page you are attempting to access requires you to authenticate using your SecurID token." followed by "Enter your User Name and SecurID PASSCODE in the following fields, and then click 'Send.' If you make a mistake, use 'Reset' to clear the fields." The form contains two input fields: "Username:" and "PASSCODE:". Below the fields are three buttons: "Send", "Reset", and "Cancel".

The first time you log in, enter your 10 character long username in the **Username** field and the six digits currently displayed on your token in the **PASSCODE** field. It is recommended to wait for the digits on the SecurID token to reset before attempting to log in.

You will be prompted to set a new PIN. The PIN must meet the following criteria:

- Alphanumeric characters only
- Contains exactly one capital letter
- Contains exactly eight characters

Following successful set up of your PIN, your PASSCODE will then be the eight character long PIN followed by the six digits displayed on your token.

**Example:** If your PIN is **B1234567** and the digits displayed on the SecurID token are **349084**, you will log in entering **B1234567349084** in the PASSCODE field.

Upon successful authentication you will be redirected to the eSNC home page.

**If you experience issues logging in or if you need to reset your PIN, please contact:**

**SNC Security Hotline**

(800) 333-2898

[kcstatcs@kc.frb.org](mailto:kcstatcs@kc.frb.org)

(FRS and FDIC-regulated reporters)

**Mr. Robert Jones**

(704) 350-8459

[Bob.Jones@occ.treas.gov](mailto:Bob.Jones@occ.treas.gov)

(OCC-regulated reporters)

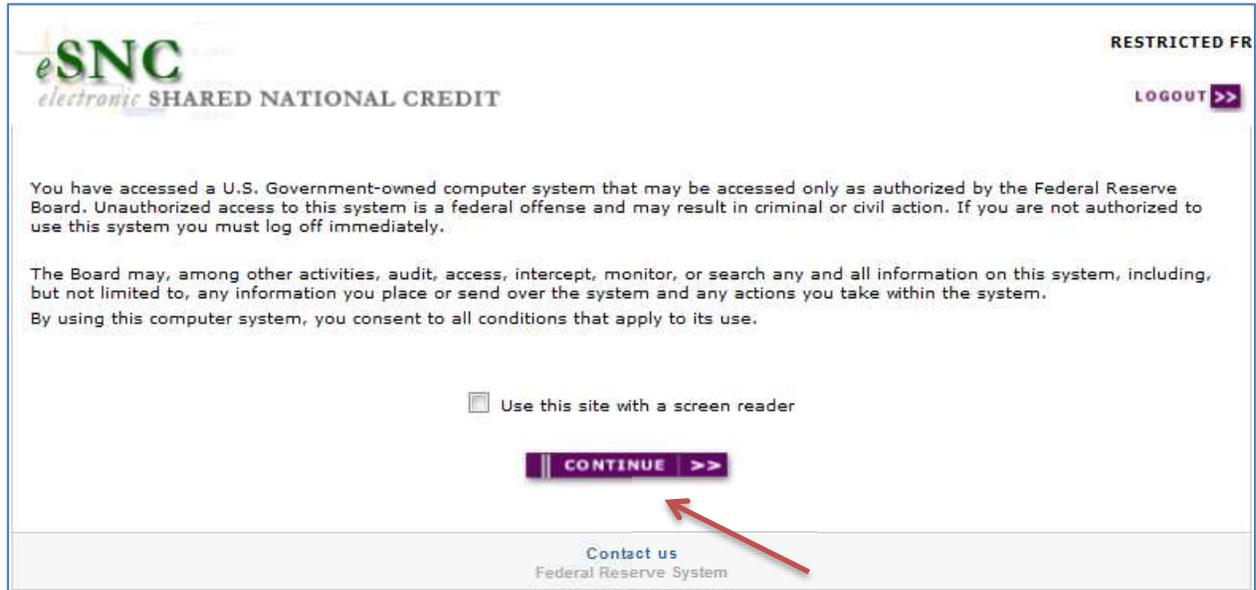

## **Logging Out**

Due to the confidentiality of SNC data, please log out of the eSNC application when it is not in use. You may log out of the eSNC application by clicking on the **LOG OUT** button located in the upper right-hand corner of the screen.

**Note:** Users will be prompted with an inactivity warning after 25 minutes of inactivity. You may click on the **Extend Session** button to remain logged into eSNC. If no action is taken within 5 minutes of this prompt, you will be automatically logged out of eSNC. All unsaved changes will be lost.

## Submission Selection

On the eSNC home page, click on the **Continue** button to display a list of accessible SNC data files for all available report dates.

Locate the file you wish to access then click on the **Submission Version** (e.g. Initial) located to the left of the **Submission Status** to open the submission.

**Note:** Users responsible for submitting SNC data for multiple institutions will be able to choose between all reporting entities for which access has been granted.

There are two file types: **Agent** and **Participant**. The primary differences between the two file types are listed below:

### Agent File

Both Basic and Expanded reporters submit an agent file. On the agent file, Basic reporters report only SNC credits for which they are the agent while Expanded Reporters report all syndicated loans for which they are the agent.

### Participant File

Expanded reporters also submit a participant file. On the participant file, Expanded reporters report all syndicated loans for which they are acting solely as a participant.

**Note:** Refer to the SNC Reporting Instructions for more information regarding the differences between the agent and participant files.

BANK SUBMISSIONS			First Prev Page 1/3	Next Last Display 10 records

# Manual Reporters

Manual reporters submit SNC data by manually keying all reportable entity and credit data into the eSNC application. Edit validation occurs as data are entered. Validity edit failures must be corrected prior to file submission, while quality edit failures must be acknowledged.

It is recommended to add all entity data prior to adding credit data. This results in a more efficient, streamlined workflow because you will not have to stop and create entities each time you add a credit to your submission.

## Entities

### Overview

The term “entity” refers to any fund, bank, or company acting as an agent, obligor, or participant in a credit. All entities, pursuant to the SNC Reporting Instructions, must be included in your SNC data submission.

**Note:** Please ensure that all entities are reported with accurate legal names and locations. Entity information directly impacts the distribution of SNC exam results; incorrectly reported information may result in SNC exam results being distributed to incorrect entities.

### Adding Entities

There are three methods to add entities to your SNC data submission: Creating entities, copying entities from previous submissions, and copying entities from NIC.

### Creating an Entity

The first method to add an entity is by selecting the **Create Entity** option under the **Entities** menu. This method is used to create a newly reported entity. Previously reported entities can be copied forward using the **Copying an Entity from Previous Submissions** method (page 8).

Federal Reserve System

All data fields designated with an asterisk must be populated. Optional data fields, such as Tax ID, may be left blank if the corresponding information is not available. Select the **Save** option after you populate all appropriate data fields.

The newly created entity will be validated upon saving. Any edit failures triggered by the entity data will be displayed on the screen.

The screenshot shows the 'ENTITIES' tab in the Reporting Bank system. The entity 'Test Entity, LLC' with internal ID 'TESTENT' has been saved successfully. However, a validity error is present: 'Either NAICS Code or SIC Code is required.' The error details table below shows the error type as 'Validity' and the message as 'Either NAICS Code or SIC Code is required.' A red arrow points to the error message.

ERROR TYPE	ERROR MESSAGE
Validity	Either NAICS Code or SIC Code is required.

**Note:** An entity added using this method will be successfully saved even if it triggers validity edit failures. Validity edit failures must be corrected before you submit your SNC data.

### Copying an Entity from Previous Submissions

The second method to add an entity is by copying a reported entity from previous submissions. You may copy an entity from previous submissions by selecting the **Search Entities** option under the **Entities** menu. The **Reporting Bank's Entities from Previous Submissions** option within the Search menu allows you to search for previously reported entities and add them to your bank's submission.

The screenshot shows the 'Reporting Bank' interface with the 'ENTITIES' tab selected. Under 'ENTITY SEARCH', the search dropdown is open, showing three options: 'Reporting Bank's Entities', 'Reporting Bank's Entities from Previous Submissions' (highlighted), and 'Entities from NIC'. Below the search dropdown are several input fields: 'Name' and 'Short Name' (each with a 'Begins With' dropdown), 'Internal Entity ID', 'Tax ID', 'City', 'State/Province' (dropdown), 'Country' (dropdown), and 'Error Status' (dropdown). A purple 'SEARCH >>' button is located below the input fields. At the bottom of the page, there is a 'Contact us Federal Reserve System' link.

Using the **Reporting Bank's Entities from Previous Submissions** option in the Search dropdown menu, you may populate the various search criteria to look for previously reported entities. The eSNC application will return a list of results that match the search criteria.

**Note:** eSNC will return a maximum of 250 search results. If a search returns more than 250 results, it is advised to refine the search criteria.

If your search returns a match, you may click on the **RSSD ID** located to the left of the entity's name to view the entity's details.

### Copying an Entity from NIC

The third method to add an entity is by copying an existing entity from the National Information Center (NIC) database. You may copy an entity from NIC by selecting the **Search Entities** option under the **Entities** menu. The **Entities from NIC** option within the Search menu allows you to search for existing entities in the NIC database and add them to your bank's submission.

The newly created entity will be validated upon saving. Any edit failures triggered by the entity data will be displayed on the screen.

**Note:** An entity added using this method will be successfully saved even if it triggers validity edit failures. Validity edit failures must be corrected before you submit your SNC data.

## Editing Entities

You may edit an existing entity by selecting the **Search Entities** option under the **Entities** menu. The **Reporting Bank's Entities** option within the Search menu allows you to search for existing entities in your submission.

The screenshot shows the 'ENTITIES' menu selected in the top navigation bar. Below it, there are two options: '>> Search Entities' and '>> Create Entity'. The 'Search Entities' option is highlighted. The main content area is titled 'ENTITY SEARCH' and contains a search form. The 'Search:' dropdown menu is open, showing three options: 'Reporting Bank's Entities' (highlighted), 'Reporting Bank's Entities from Previous Submissions', and 'Entities from NIC'. Below the search dropdown, there are several input fields and dropdown menus: 'Name:' and 'Short Name:' (text inputs), 'Internal Entity ID:' (text input), 'Tax ID:' (text input), 'City:' (text input), 'State/Province:' (dropdown menu with '-- Choose One ---'), 'Country:' (dropdown menu with '-- Choose One ---'), and 'Error Status:' (dropdown menu with '-- All ---'). To the right of the 'Name:' and 'Short Name:' fields, there are two 'Begins With' dropdown menus. At the bottom of the search form, there is a purple 'SEARCH >>' button. Below the search form, there is a 'Contact us' link and the text 'Federal Reserve System'.

Using the **Reporting Bank's Entities** option in the Search dropdown menu, you may populate the various search criteria to look for pre-existing entities in your submission. The eSNC application will return a list of results that match the search criteria. Locate the entity you wish to edit and click on the **RSSD ID** located to the left of the entity's name to view the entity's details.

Federal Reserve System

You will be prompted to confirm that you would like to delete the entity. Click **OK** to confirm.

You will receive a message that the entity was successfully deleted.

**Note:** An entity cannot be deleted if it is being reported in a credit within your current SNC data submission. You will receive an error message if you attempt to delete an entity if it is referenced by at least one credit. All instances of the entity must be removed from your reported credits before it can be deleted.

A screenshot of the "ENTITIES" tab in the reporting system. It shows a search bar with "Reporting Bank's Entities" selected, a message box stating "Entity with Internal ID 12345 was deleted successfully.", and various search filters like Name, Short Name, Internal Entity ID, Tax ID, City, State/Province, Country, and Error Status. A "SEARCH >>" button is at the bottom.

**Note:** You may delete all extraneous (unused) entities in one step using the **Remove Unused Entities** option prior to file submission. Refer to the **Data Submission** section (page 46) for more detail.

# Credits

## Overview

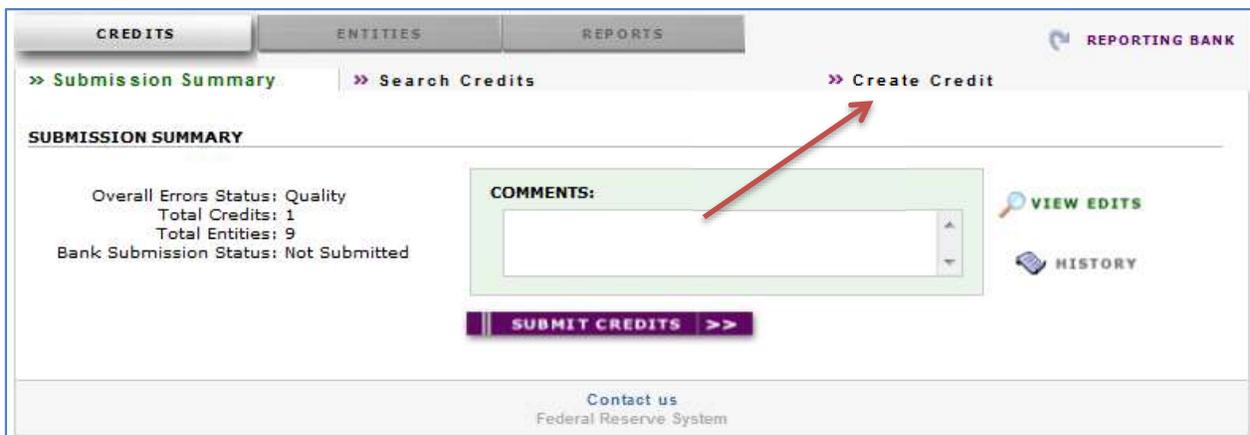

The term “credit” refers to any loan, loan commitment, credit facility, or tranche of a loan agreement. All credits, pursuant to the SNC Reporting Instructions, must be included in your SNC data submission.

## Adding Credits

There are three methods to add credits to your SNC data submission: Creating credits, copying credits from the previous submission, and cloning credits.

## Creating a Credit

The first method to add a credit is by selecting the **Create Credit** option under the **Credits** menu. This method is used to create a newly reported credit. Previously reported credits can be copied forward using the **Copying a Credit from the Last Report Date** method (page 30).

You will be taken to the following screen:

The screenshot shows the 'CREATE CREDIT' interface. At the top, there are navigation tabs for 'CREDITS', 'ENTITIES', and 'REPORTS'. Below these are links for 'Submission Summary', 'Search Credits', and 'Create Credit'. The main heading is 'CREATE CREDIT'. On the right side, there are labels for 'Obligor:', 'SNC Credit ID:', 'Internal Credit ID:', and '>>Credit Error Status: NO DATA'. The form is divided into four tabs: 'OBLIGOR', 'CREDIT DETAILS', 'PARTICIPANTS', and 'RATINGS'. The 'OBLIGOR' tab is selected and contains a section for '\* Required Information' with the following fields: '\*Internal Obligor ID:' (with an 'Add' button and magnifying glass icon), 'Original Internal Obligor ID:', 'Legal Name:', 'City:', 'State/Province:', 'Zip:', 'Country:', 'Industry Code:', 'Industry Code Description:', and 'Tax ID:'. At the bottom of the form are 'SAVE' and 'CANCEL' buttons. A footer contains 'Contact us' and 'Federal Reserve System'.

Review and populate all four tabs (Obligor, Credit Details, Participants, Ratings) of the credit. All data fields designated with an asterisk must be populated. Optional data fields, such as CUSIP, may be left blank if the corresponding information is not available. Select the **Save** option after you populate all appropriate data fields.

### Obligor

If you know the Internal Entity ID of the obligor you want to add to the credit, key the Internal Entity ID into the **Internal Obligor ID** field and click on the **Add** button.

If you do not know the Internal Entity ID of the obligor you want to add to the credit, click on the magnifying glass icon next to the **Internal Obligor ID** field to search for the entity in your submission and/or NIC.

## Credit Details

If you know the Internal Entity ID of the agent bank you want to add to the credit, key the Internal Entity ID into the **Agent ID** field and click on the **Add** button.

If you do not know the Internal Entity ID of the agent you want to add to the credit, click on the magnifying glass icon next to the **Agent ID** field to search for the entity in your submission and/or NIC.

The screenshot shows the 'CREATE CREDIT' form in the eSNC application. The form is titled 'CREATE CREDIT' and has tabs for 'OBLIGOR', 'CREDIT DETAILS', 'PARTICIPANTS', and 'RATINGS'. The 'CREDIT DETAILS' tab is active. A red arrow points to the 'Agent ID' field, which has a magnifying glass icon and an 'Add >>' button next to it. Other fields include 'SNC Credit ID', '\*Internal Credit ID', '\*Original Internal Credit ID', 'CUSIP', '\*Origination Date', '\*Maturity Date', '\*Committed Exposure Global', '\*Utilized Exposure Global', 'Cumulative Charge-offs', '\*Department', '\*Credit Type', and '\*Credit Purpose'. There are 'SAVE >>' and 'CANCEL >>' buttons at the bottom. The top navigation bar shows 'CREDITS', 'ENTITIES', and 'REPORTS' tabs, with 'REPORTING BANK' on the right. The bottom of the page has a 'Contact us Federal Reserve System' link.

You will receive an **Entity Search** popup screen. You may populate the various search criteria to look for pre-existing entities in your **Reporting Bank's Entities** or **Entities from NIC**. The eSNC application will return a list of results that match the search criteria.

If your search returns a match, you may click on the **Entity ID** located to the left of the entity's name to select the entity as the agent.

### Copying a Credit from the Last Report Date

The second method to add a credit is by copying a previously reported credit from the last report date.

You may copy a credit from the last report date by selecting the **Search Credits** option under the **Credits** menu. Click on the **Copy Credits From the Last Report Date** button.

[CREDITS](#) | [ENTITIES](#) | [REPORTS](#) | [REPORTING BANK](#)

[» Submission Summary](#) | [» Search Credits](#) | [» Create Credit](#)

**CREDIT SEARCH**

Search:

Internal Credit ID:       Obligor Internal ID:   
 SNC Credit ID:       Obligor Name:  Find Anywhere ▾  
 Credit Error Status: All ▾      Obligor RSSD:   
 SNC Flag: All ▾

**CREDIT SEARCH RESULTS**

CREDIT ID	SNC CREDIT ID	OBLIGOR NAME	TOTAL EXPOSURE	STATUS	SNC FLAG
TESTCREDIT1	None Assigned	Test Borrower	\$53,000,000	Edit Free

[Contact us](#)  
 Federal Reserve System

You will receive a popup screen listing all previously reported credits. You may copy all or only some of the credits by using the **Copy Selected** or **Copy All** buttons.

**CREDITS FROM REPORT DATE: 12/31/2011** [CLOSE](#)

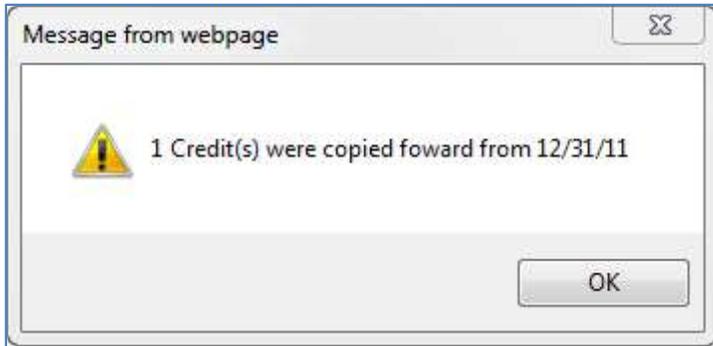

Select Credits to be copied into the new report date.

INTERNAL CREDIT ID	OBLIGOR NAME	TOTAL EXPOSURE	TOTAL UTILIZED
<input type="checkbox"/> TESTCREDIT2	Test Borrower 2	\$30,000,000	\$15,000,000

First Prev 1/1 Next Last

You will receive a popup message indicating how many credits were successfully copied from the last report date. Click **OK** to be taken back to the **Search Credits** screen.

The copied credit(s) will appear in your submission.

**CREDIT SEARCH RESULTS**

CREDIT ID	SNC CREDIT ID	OBLIGOR NAME	TOTAL EXPOSURE	STATUS	SNC FLAG
TESTCREDIT1	None Assigned	Test Borrower	\$53,000,000	Edit Free	
TESTCREDIT2	200020527	Test Borrower 2	\$30,000,000	Validity	

Certain credit details, such as Utilized Exposure Global, Non-Accrual date, etc. will not be copied from the last report date. Review and populate all four tabs (Obligor, Credit Details, Participants, Ratings) of each credit. All data fields designated with an asterisk must be populated. Optional data fields, such as CUSIP, may be left blank if the corresponding information is not available. Select the **Save** option after you populate all appropriate data fields for each credit.

### Cloning an Existing Credit

The third method to add a credit is by cloning an existing credit within your current submission. To clone a credit, first select the credit you wish to copy by selecting the **Search Credits** option under the **Credits** menu. You may populate the various search criteria to look for pre-existing credits in your current submission. The eSNC application will return a list of results that match the search criteria.

Locate the credit you wish to clone and click on the **SNC Credit ID** located to the left of the obligor's name to view the credit's details.

The screenshot displays the 'CREDIT SEARCH' interface. At the top, there are tabs for 'CREDITS', 'ENTITIES', and 'REPORTS', with 'CREDITS' selected. Below the tabs are navigation links: '>> Submission Summary', '>> Search Credits', and '>> Create Credit'. The 'CREDIT SEARCH' section contains several input fields: 'Internal Credit ID', 'SNC Credit ID', 'Credit Error Status' (set to 'All'), 'SNC Flag' (set to 'All'), 'Obligor Internal ID', 'Obligor Name', and 'Obligor RSSD'. A 'Find Anywhere' dropdown menu is also present. A purple 'SEARCH >>' button and a 'Copy Credits From the Last Report Date >>' button are located below the search fields.

The 'CREDIT SEARCH RESULTS' section shows a table with the following data:

CREDIT ID	SNC CREDIT ID	OBLIGOR NAME	TOTAL EXPOSURE	STATUS	SNC FLAG
TESTCREDIT1	None Assigned	Test Borrower	\$53,000,000	Edit Free	

Below the table, there are navigation controls: 'First Prev 1/1 Next Last Display 10 records'. A 'PRINT' button is also visible. At the bottom of the interface, there is a 'Contact us Federal Reserve System' link.

**Note:** The SNC Credit ID for newly created credits will be listed as **None Assigned**. This is because credits are not assigned SNC Credit IDs until your SNC data file is submitted.

Click on the **Clone** button to create a copy of the selected credit.

## System-to-System (STS) Reporters

STS reporters submit SNC data by uploading an XML file into the eSNC application. The XML file must be free of fatal (formatting) errors before it can be successfully loaded. Upon a successful XML data load, all entity and credit data will be transferred into eSNC. A successful XML data load does not automatically submit your SNC data; you may manually add, delete, or change data before submitting your SNC data. Validity edit failures must be corrected prior to file submission, while quality edit failures must be acknowledged.

A copy of the current XML schema for Basic (Agent) and Expanded (Agent & Participant) reporters is available on [Federal Reserve Bank of Kansas City's Shared National Credit website](#).

## XML File Upload

You may upload your XML data file by selecting the **Import SNC Data File** option under the **Credits** menu.

You will be taken to the following screen:

Click on the **Browse** button to locate the XML file then click on the **Import** button to load the file into eSNC.

You will be taken to a **File Load in Progress** screen. Wait several minutes then click on the **Refresh Status** button to determine if the file load was successful.

**CREDITS**    **ENTITIES**    **REPORTS**    **REPORTING BANK**

# Reports

Prior to submitting your SNC data, you may access a variety of reports within eSNC to ensure that your reported data are accurate. There are various reports you may generate in three different file formats: PDF, Word, and CSV. You may access these reports by selecting the **Reports** menu.

**Note:** The Shared Credit Review Report can only be generated in the PDF file format.

The ten reports you can access are organized into four categories: **Admin Reports**, **Credit Reports**, **Data Quality Reports**, and **Entity Reports**.

A brief description of each report is listed below:

## Credit Type and Purpose Codes Report

This report generates a list of all credit type and purpose codes and their corresponding descriptions.

### **Credit Information Summary Report**

This report provides high-level information about reported credits. This report also identifies credits as NEW, UPDATED, or DELETED by comparing the reporting institution's current data to the prior period's submission.

### **Shared Credit Review Report**

This report displays all data elements for the selected credits in the reporting institution's submission.

### **Data Exception Report**

This report identifies all validity and quality edit failures in the reporting institution's submission.

### **Potential Duplicate Credits Report**

This report identifies all potential duplicate credits in the reporting institution's submission by detecting common data elements between credits.

### **NIC Updates to SNC Entities Report**

This report identifies NIC structure changes made to entities in the reporting institution's submission.

### **Obligor Summary Report**

This report identifies all borrowers reported in the institution's submission.

### **Participant Summary Report**

This report identifies all lenders reported in the institution's submission.

### **Reported Entities Compared to NIC Report**

This report compares entity attributes between the institution's reported entities and their corresponding mapped entities in NIC.

### **Report of Entities in NIC Report**

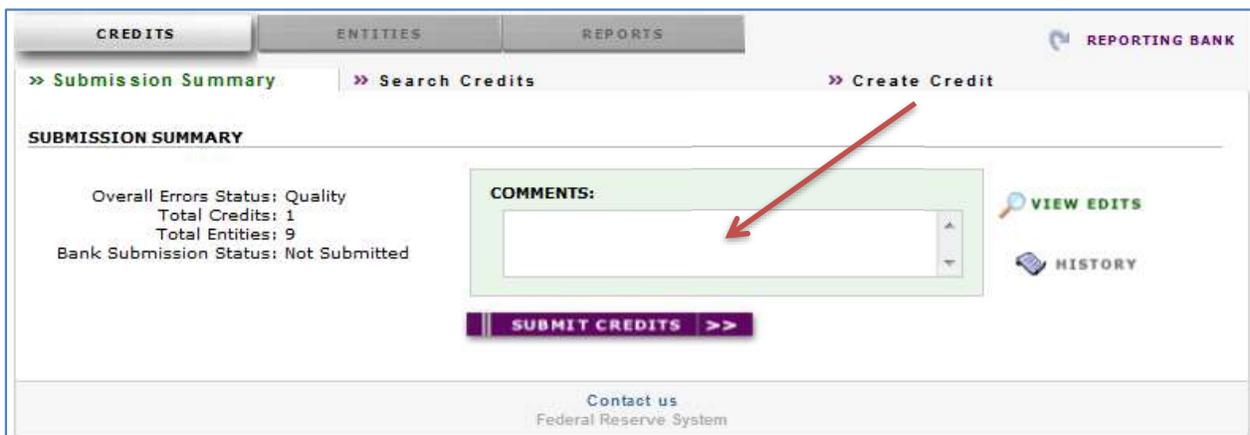

This report provides high-level information about all entities in NIC.

## Data Submission

After you input all reportable data and resolve all validity edit failures, you may submit your SNC data file by selecting the **Submission Summary** option under the **Credits** menu.

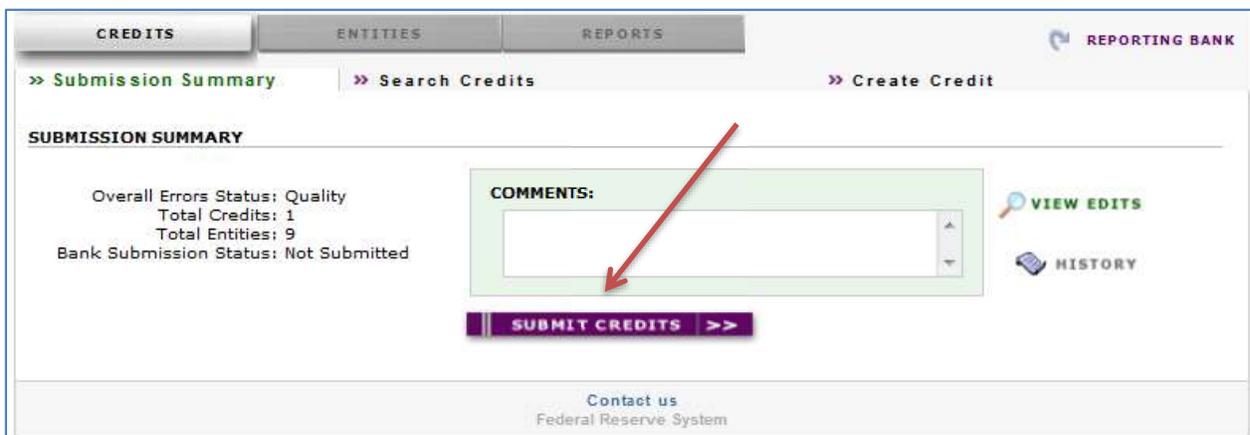

**Note:** You will be unable to modify your SNC data file after it is submitted. If you need to make a subsequent correction to your SNC data, your file will have to be opened to allow for an amendment to be made. Refer to **Amendments** section (page 50) for more detail.

**Note:** Prior to Data Submission, you may preemptively explain significant data changes or discrepancies by inserting your comments into the **Comments** box included on the **Submission Summary** screen. Your comments may expedite the SNC validation process of your SNC data file.

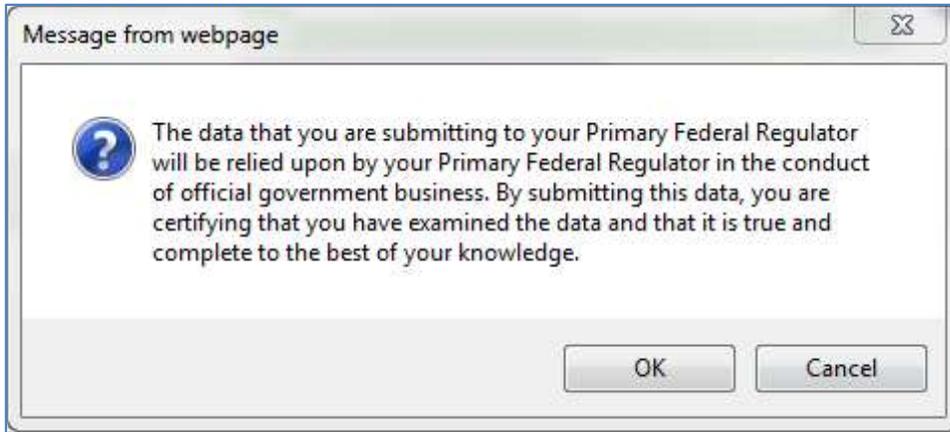

The screenshot shows the 'SUBMISSION SUMMARY' screen. At the top, there are tabs for 'CREDITS', 'ENTITIES', and 'REPORTS'. Below the tabs, there are three main options: '>> Submission Summary', '>> Search Credits', and '>> Create Credit'. The 'Submission Summary' option is selected. On the left side, there is a summary of errors: 'Overall Errors Status: Quality', 'Total Credits: 1', 'Total Entities: 9', and 'Bank Submission Status: Not Submitted'. In the center, there is a 'COMMENTS:' section with a text input box. A red arrow points to this input box. To the right of the input box, there are two buttons: 'VIEW EDITS' and 'HISTORY'. Below the input box, there is a purple button labeled 'SUBMIT CREDITS >>'. At the bottom of the screen, there is a link for 'Contact us' and the text 'Federal Reserve System'.

Click on the **Submit Credits** button to submit your SNC data file.

This screenshot is identical to the one above, showing the 'SUBMISSION SUMMARY' screen. However, the red arrow now points to the purple 'SUBMIT CREDITS >>' button at the bottom of the page.

You will receive a popup screen asking you to confirm the accuracy of your data. Click **OK** to continue.

If your file contains extraneous (unused) entities, you will be prompted to remove them. You must remove all unused entities before you can submit your file. You may do this by clicking on the **Removed Unused Entities** button.

The screenshot shows the eSNC web application interface. At the top, there are tabs for "CREDITS", "ENTITIES", and "REPORTS", and a "REPORTING BANK" button. Below the tabs, there are navigation links: ">> Submission Summary", ">> Search Credits", and ">> Create Credit". The main content area is titled "MESSAGE(S):" and contains a red message: "There are unused entities in this submission. Please review and click the link below to remove them." Below the message is a purple button with a trash icon and the text "REMOVE UNUSED ENTITIES". A red arrow points to this button. Below the button is a table with the following data:

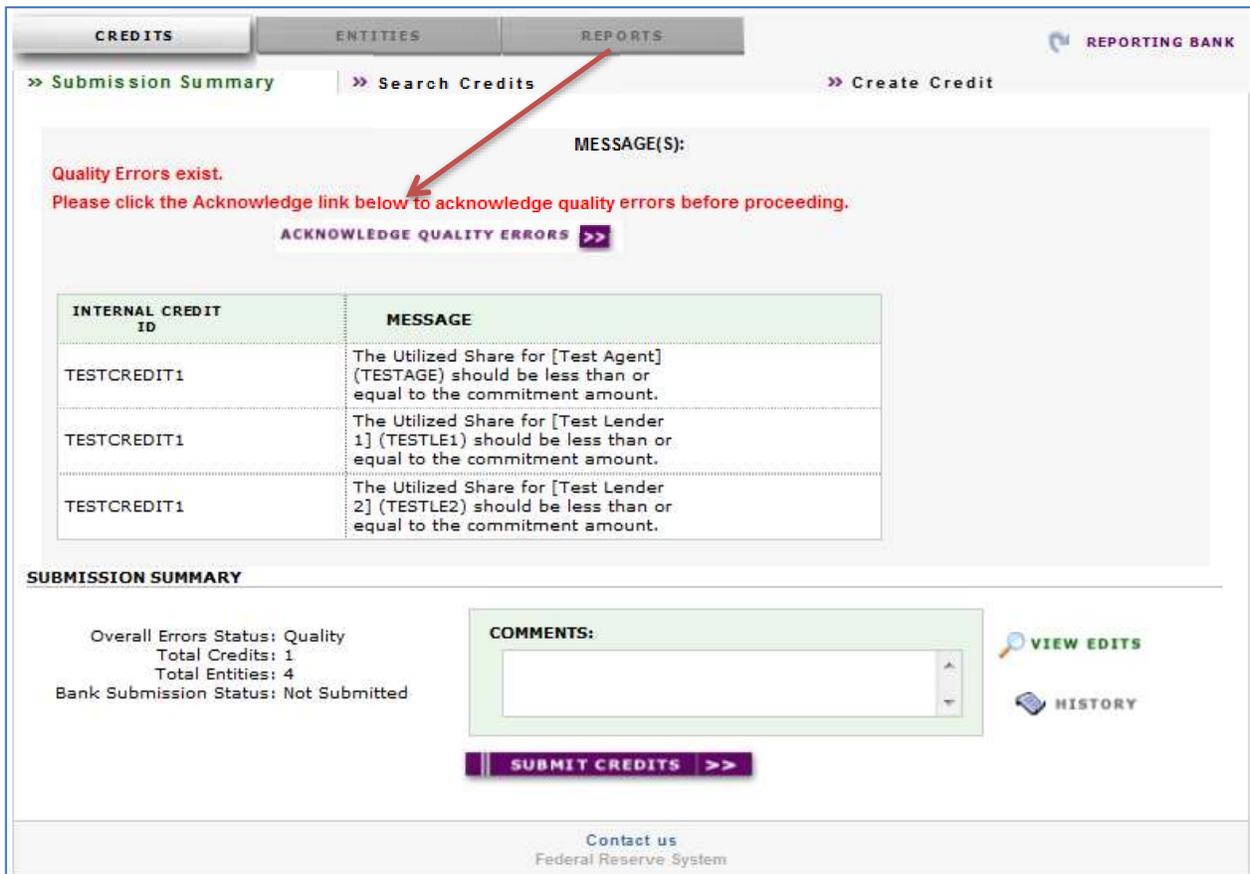

INTERNAL ID	Name
EXTRENT1	Extra Entity
TESTBOR2	Test Borrower 2
TESTLE3	Test Lender 3
TESTLE4	Test Lender 4
TESTLE5	Test Lender 5

Below the table, there are navigation controls: "First Prev 1/1 Next Last Display 10 records". Below the table is a "SUBMISSION SUMMARY" section with the following text: "Overall Errors Status: Quality", "Total Credits: 1", "Total Entities: 9", "Bank Submission Status: Not Submitted". To the right of this text is a "COMMENTS:" section with a text input field, a "VIEW EDITS" button, and a "HISTORY" button. At the bottom of the summary section is a purple "SUBMIT CREDITS >>" button. At the very bottom of the page, there is a "Contact us Federal Reserve System" link.

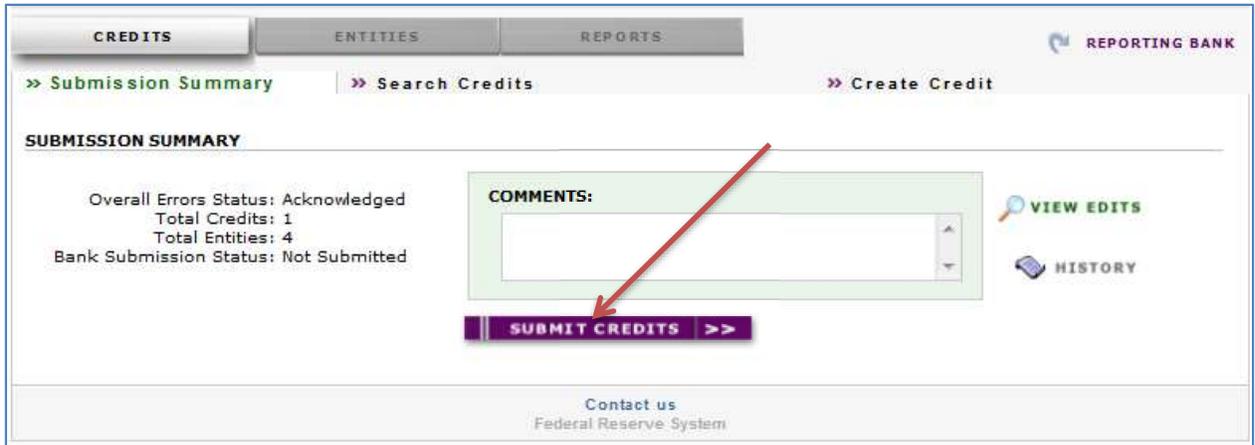

All unused entities will be removed and you will be taken back to the **Submission Summary** screen. Click on the **Submit Credits** button again to submit your SNC data file.

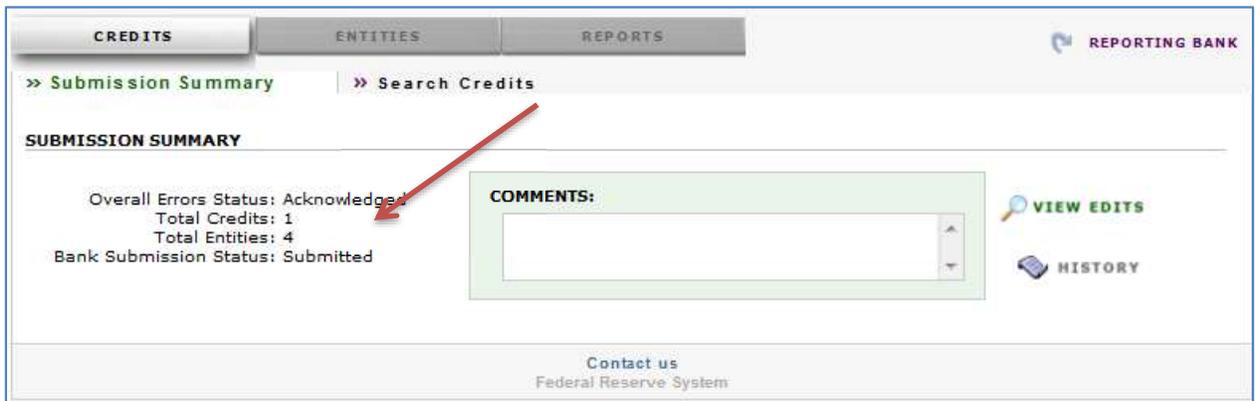

If your file contains outstanding quality edit failures, you will be prompted to acknowledge them. You may do this by clicking on the **Acknowledge Quality Errors** button. Please review your quality edit failures and correct your data if necessary before you click this button.

All quality edit failures will be acknowledged and you will be taken back to the **Submission Summary** screen. Click on the **Submit Credits** button again to submit your SNC data file.

Your SNC data file will be **Submitted**.

## Amendments

You may make changes to a previously submitted SNC data file by requesting an amendment. After all necessary changes are made, please set the file back to **Submitted** status by clicking on the **Submit Credits** button. Validity edit failures must be corrected prior to file submission, while quality edit failures must be acknowledged.

**If you need to amend submitted SNC data, please contact:**
