

Economic Outlook

March 5, 2026

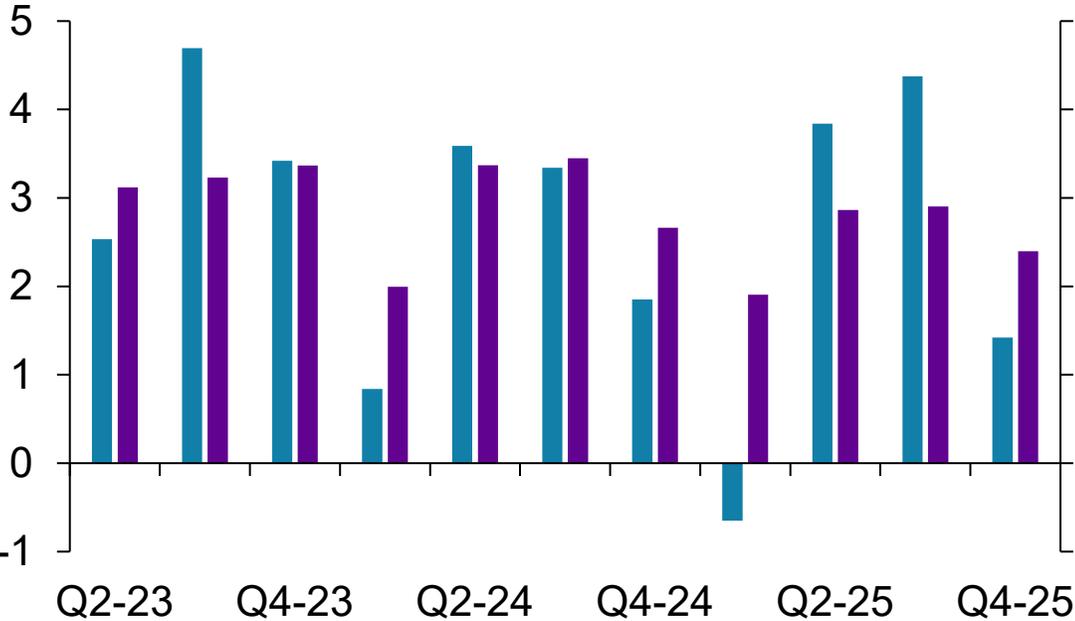

Denver / Oklahoma City / Omaha

Outlook Themes

- Overall economic activity is solid.
- Inflation remains above target.
- Though job gains were weak in 2025, broader measures suggest some stabilization in the labor market.
- Given still elevated inflation and signs of a stabilizing labor market the FOMC decided to hold rates steady in January.

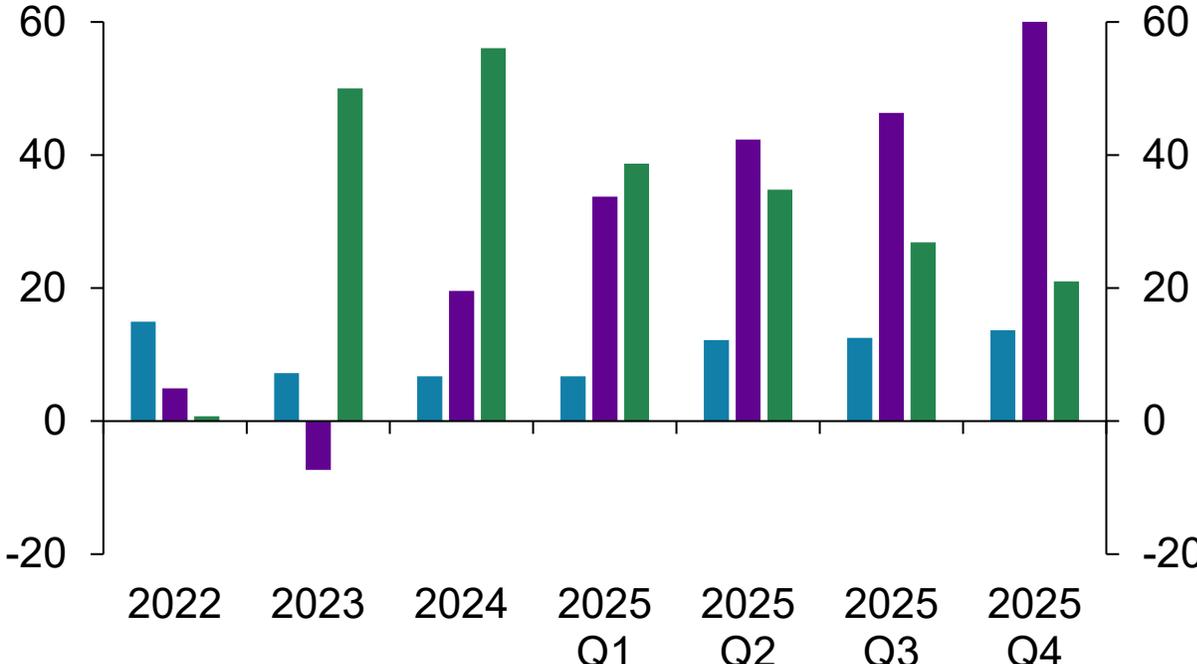

The economy is showing momentum.

Annualized quarter/quarter percent change, seasonally adjusted

Consumption is strong but uneven.

Year/year percent change

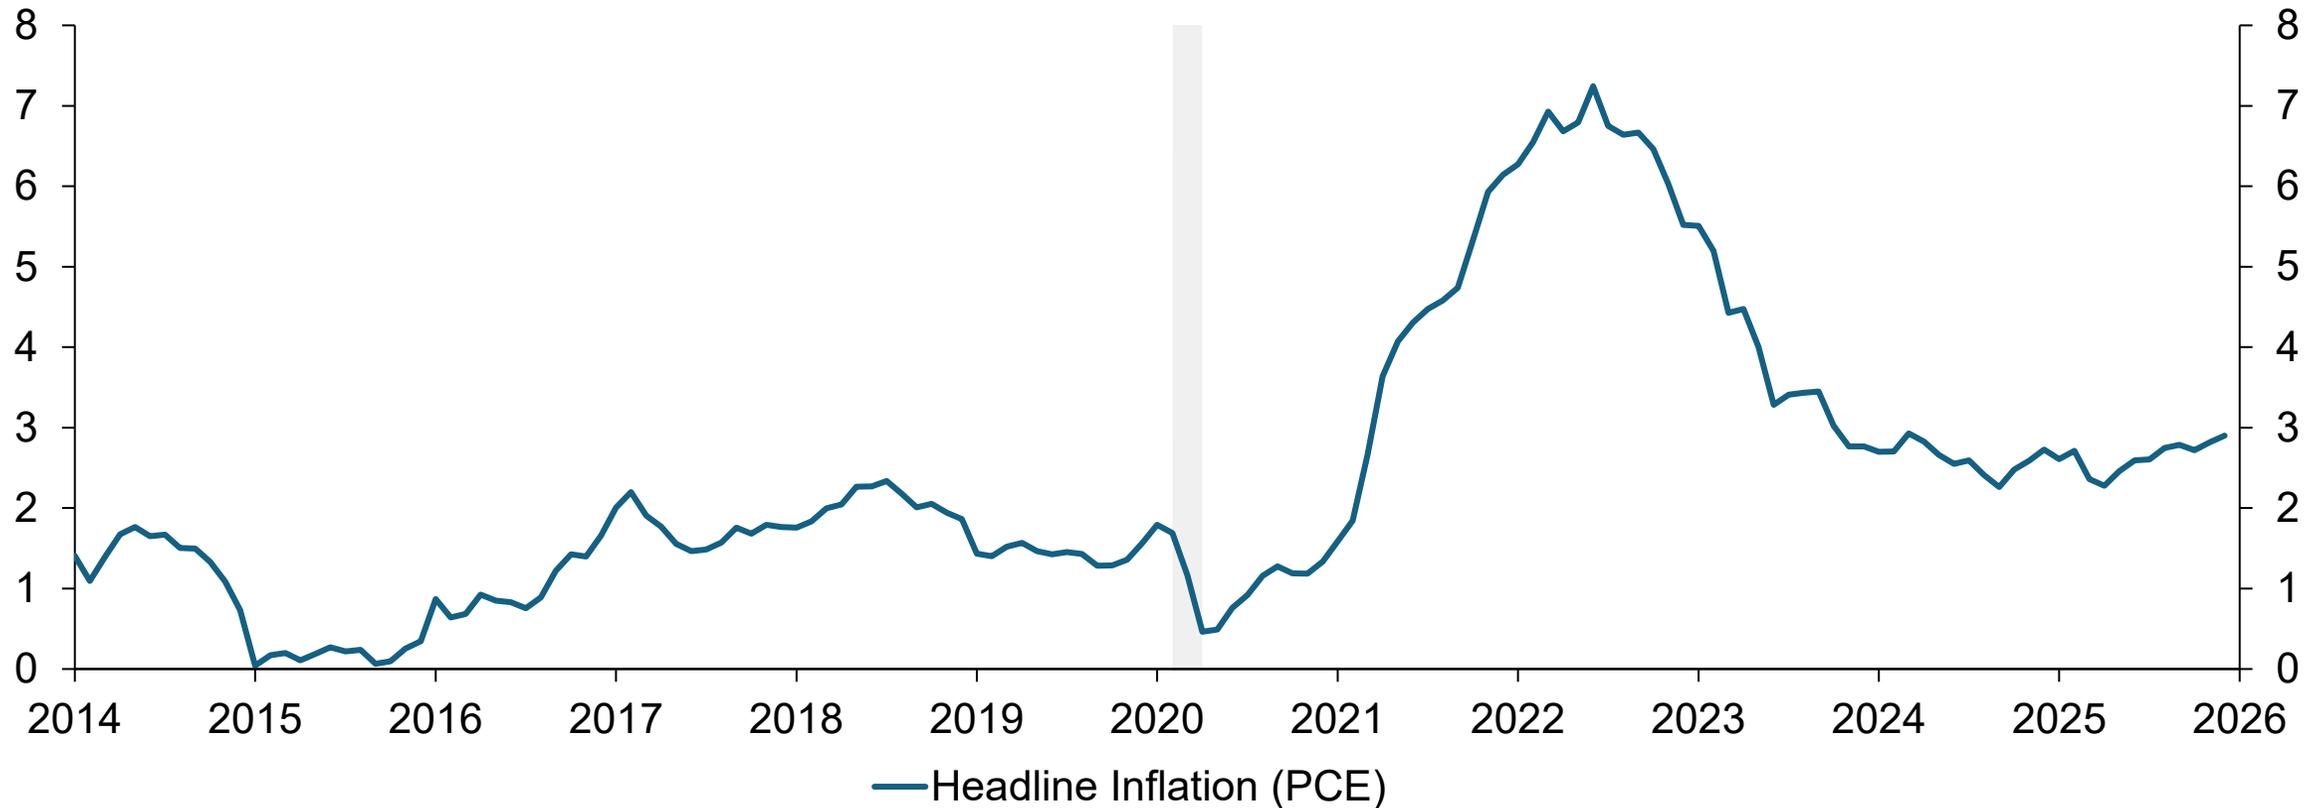

Spending by income group, index, 2020 Q1 = 100

Sources: Bureau of Economic Analysis, Bureau of Labor Statistics, Moody's Analytics, Haver Analytics

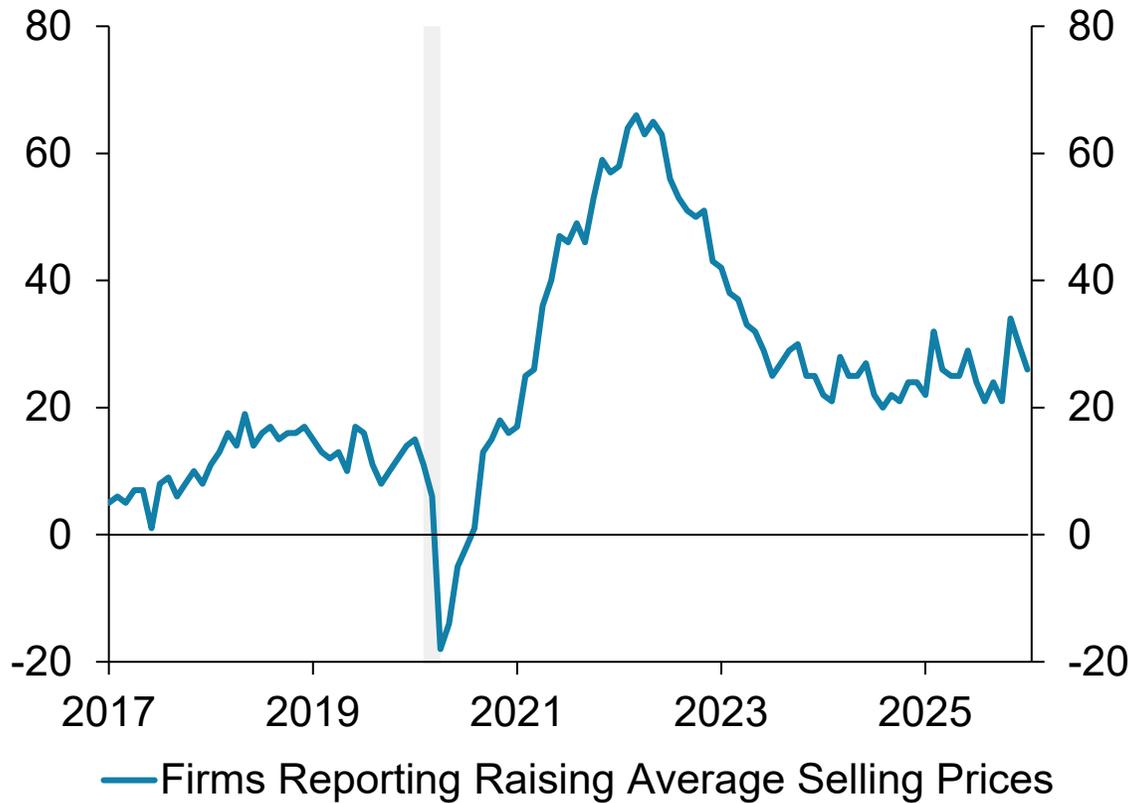

Inflation remains elevated.

Year/year percent change

Additionally, firm pricing behaviors may have changed post-pandemic.

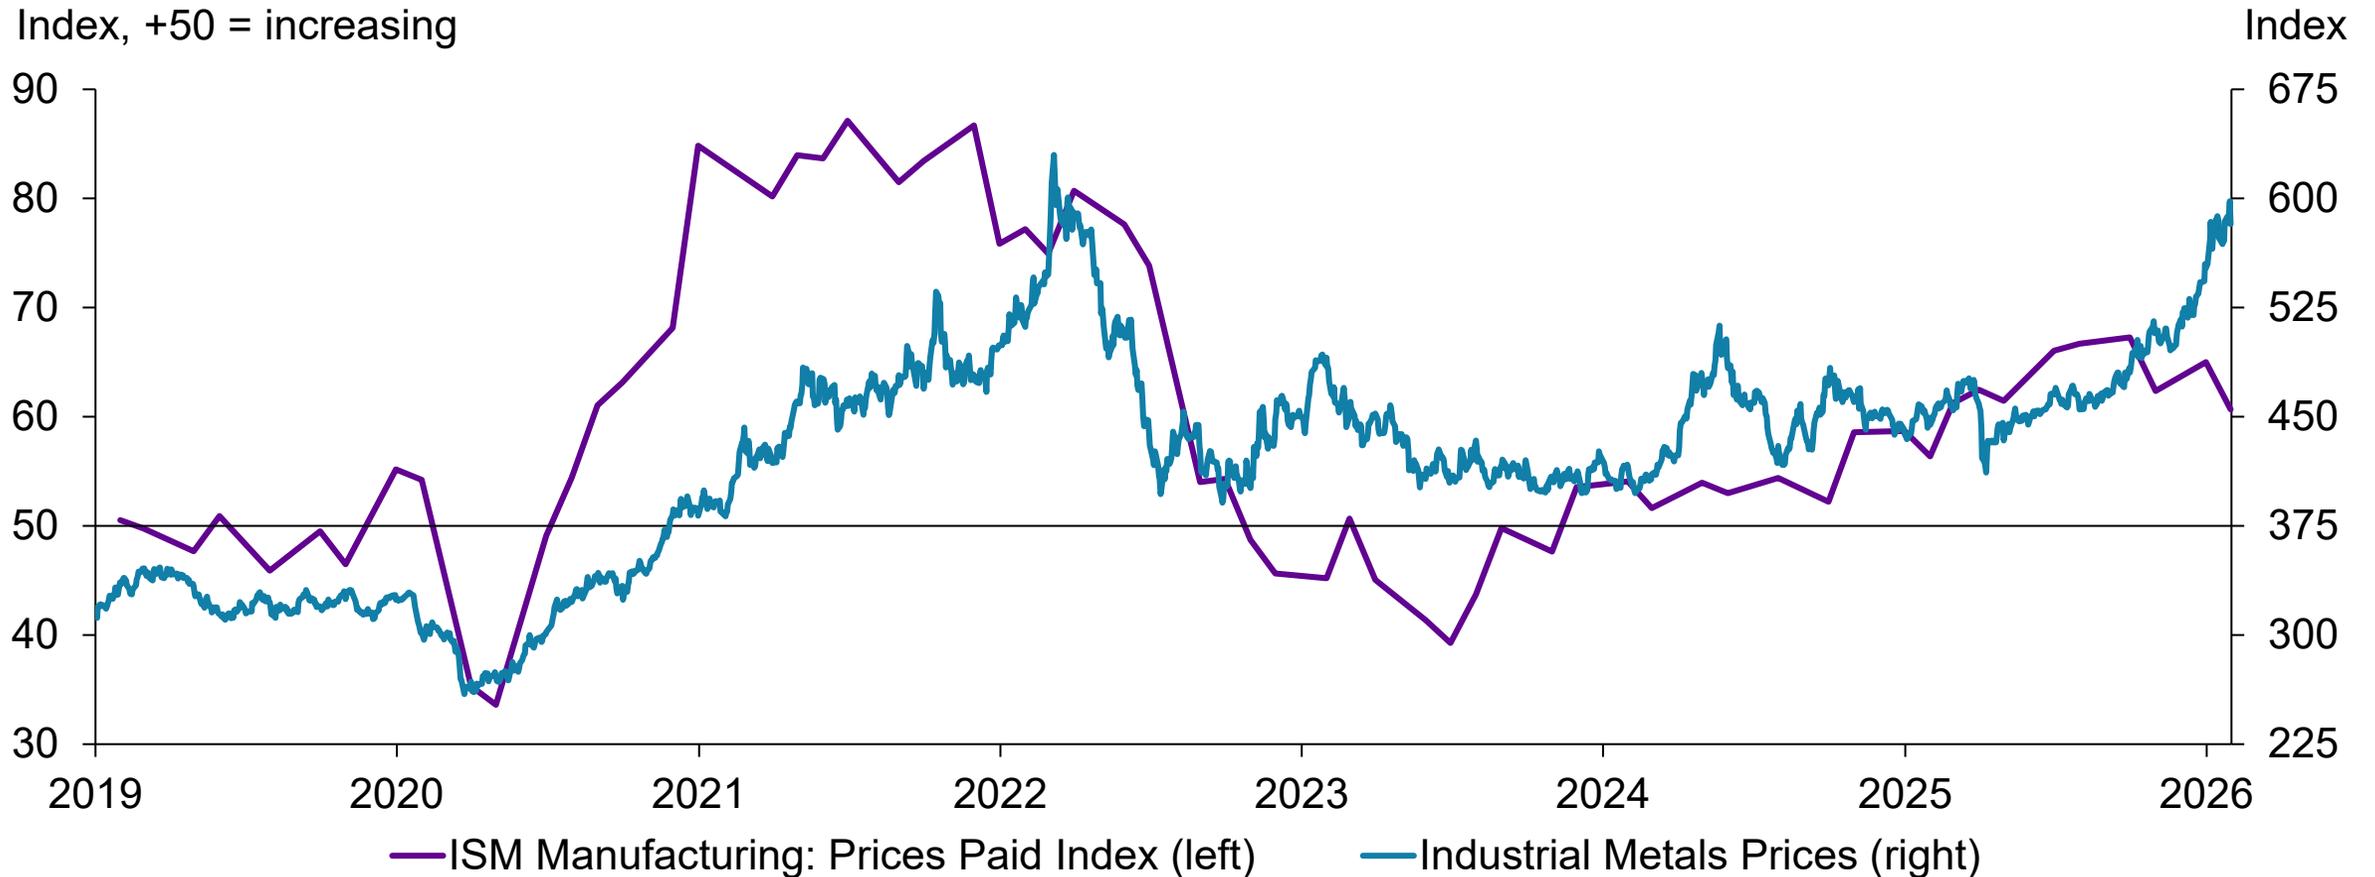

Net percent, seasonally adjusted

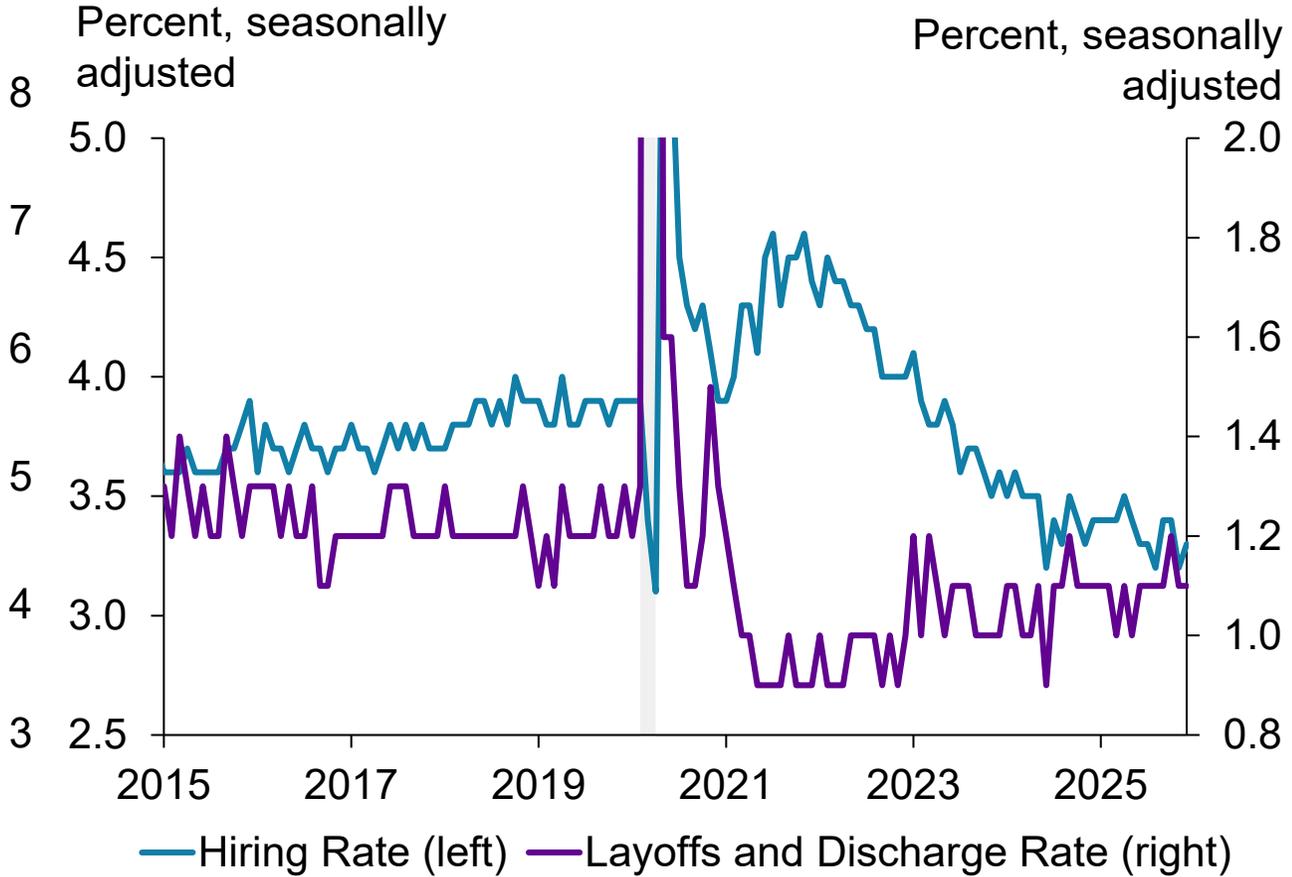

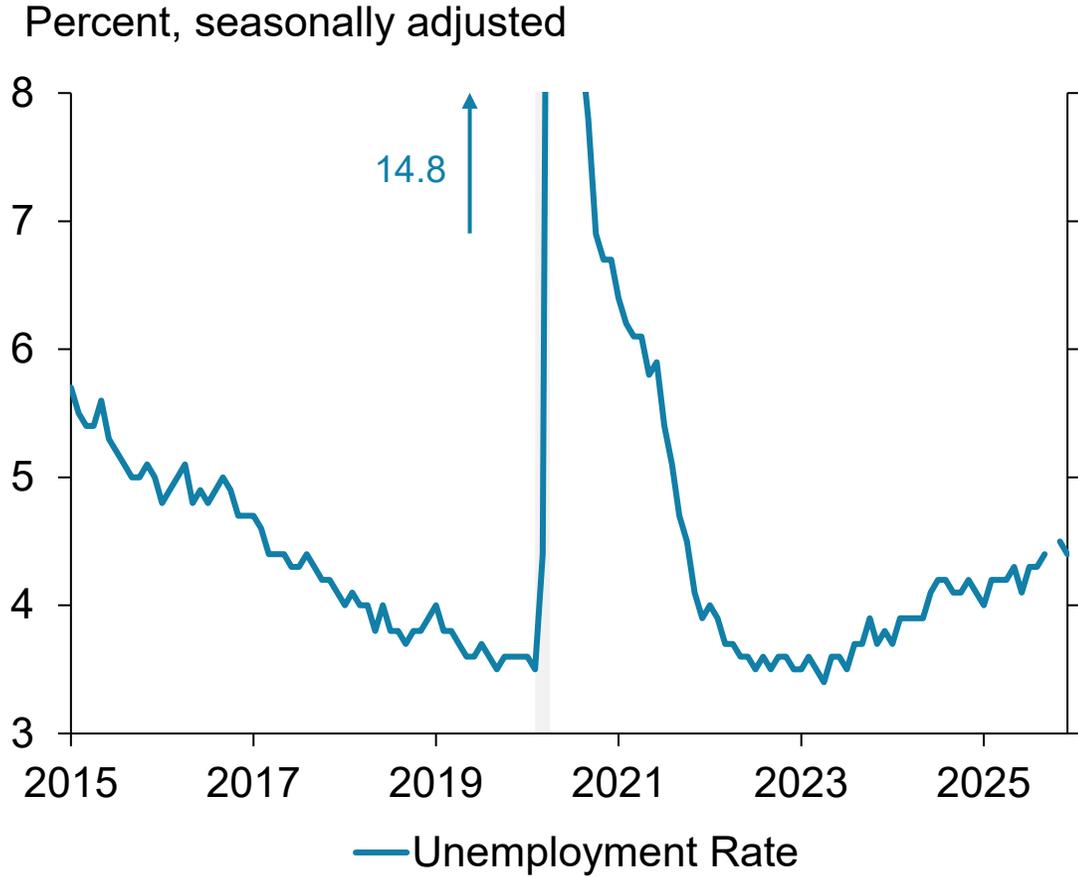

Percent

They are also facing rising input costs.

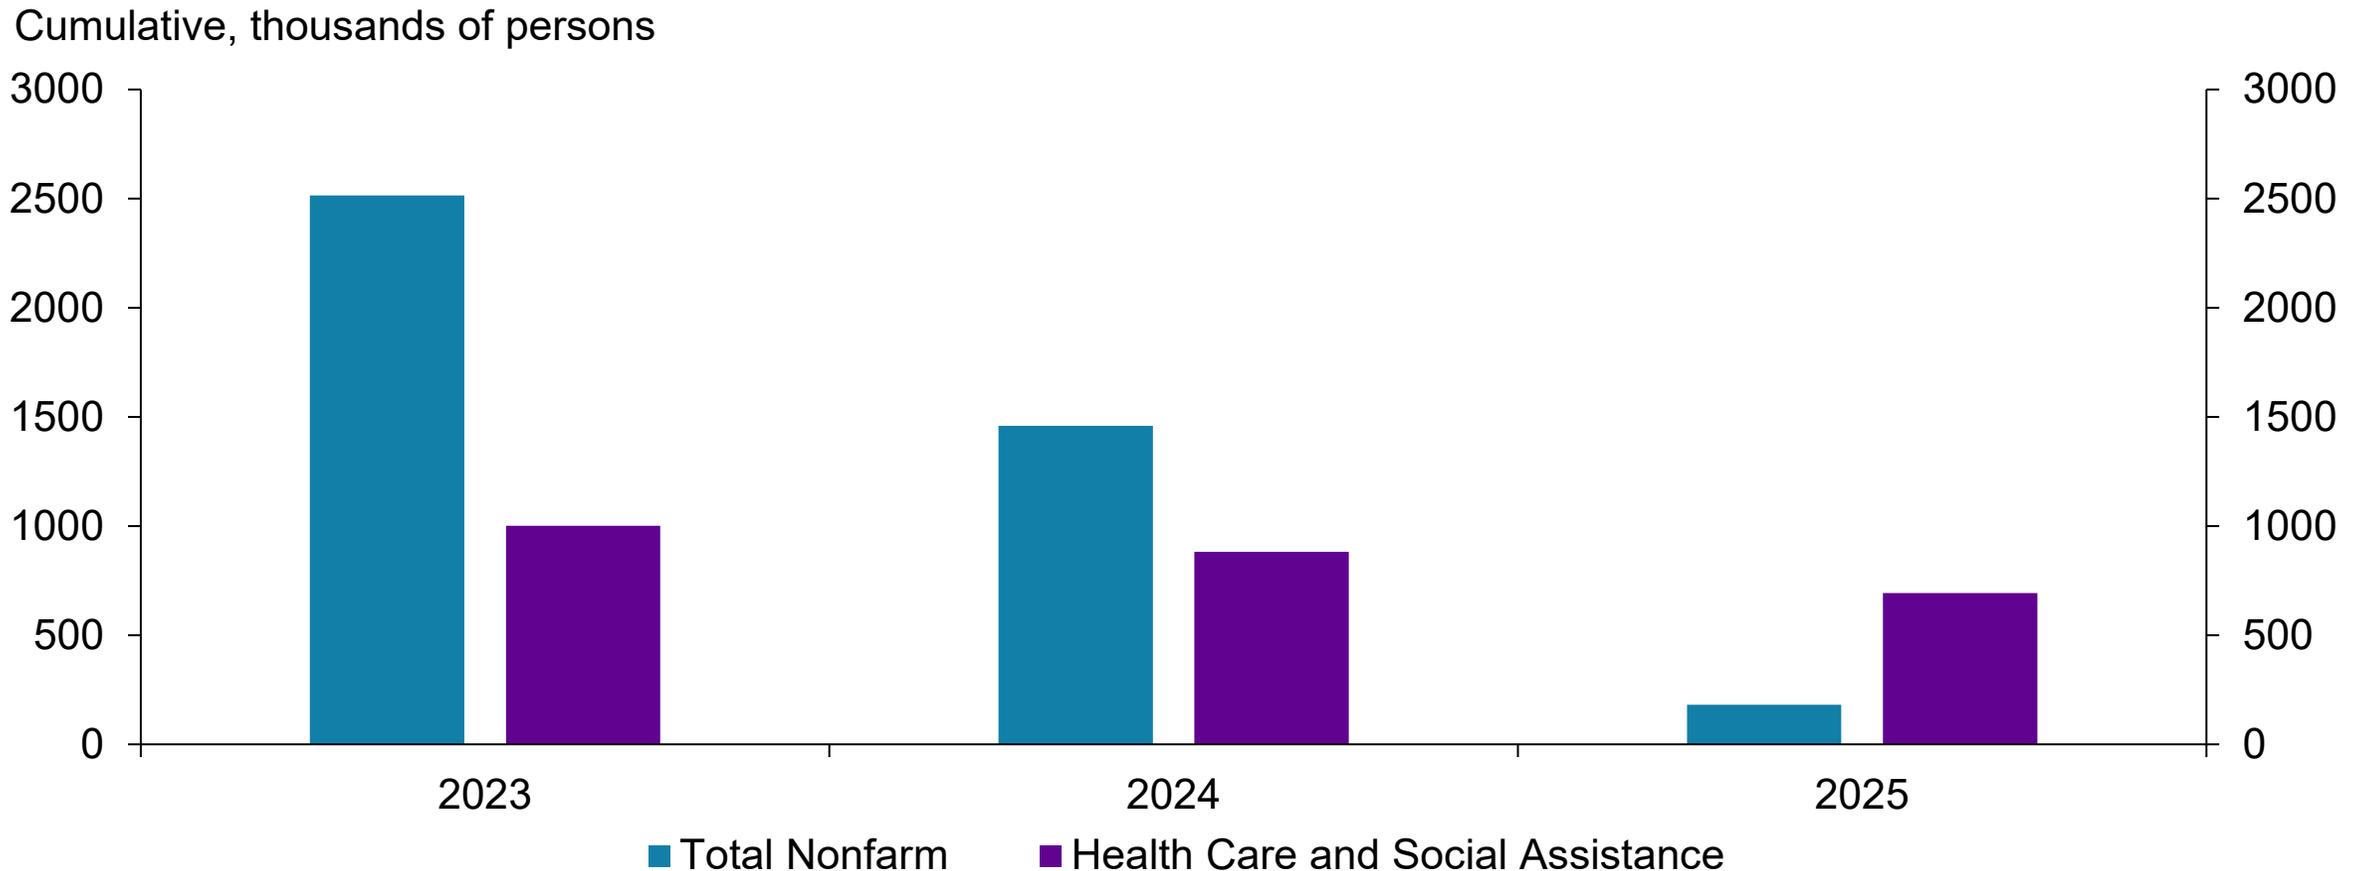

The cooling in the labor market has been orderly with lower hiring and lower firing.

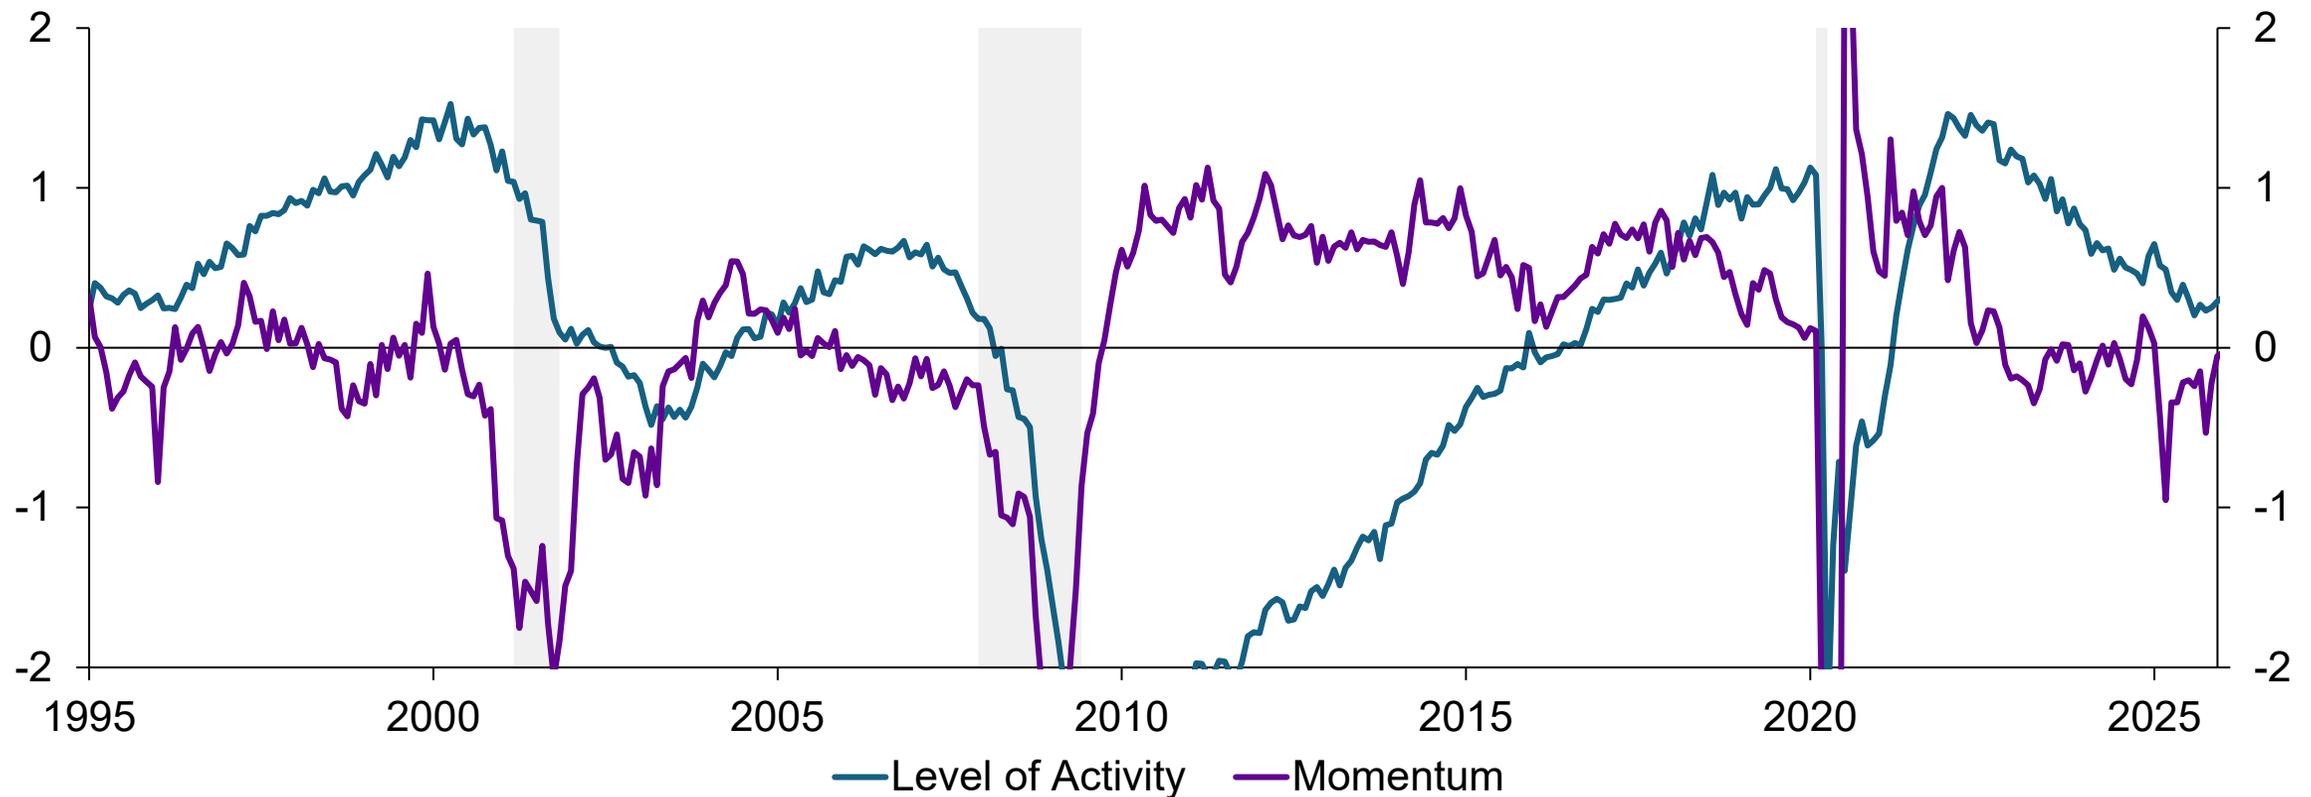

Sources: Bureau of Labor Statistics, Haver Analytics

However, payroll growth has slowed and is increasingly being driven by health care.

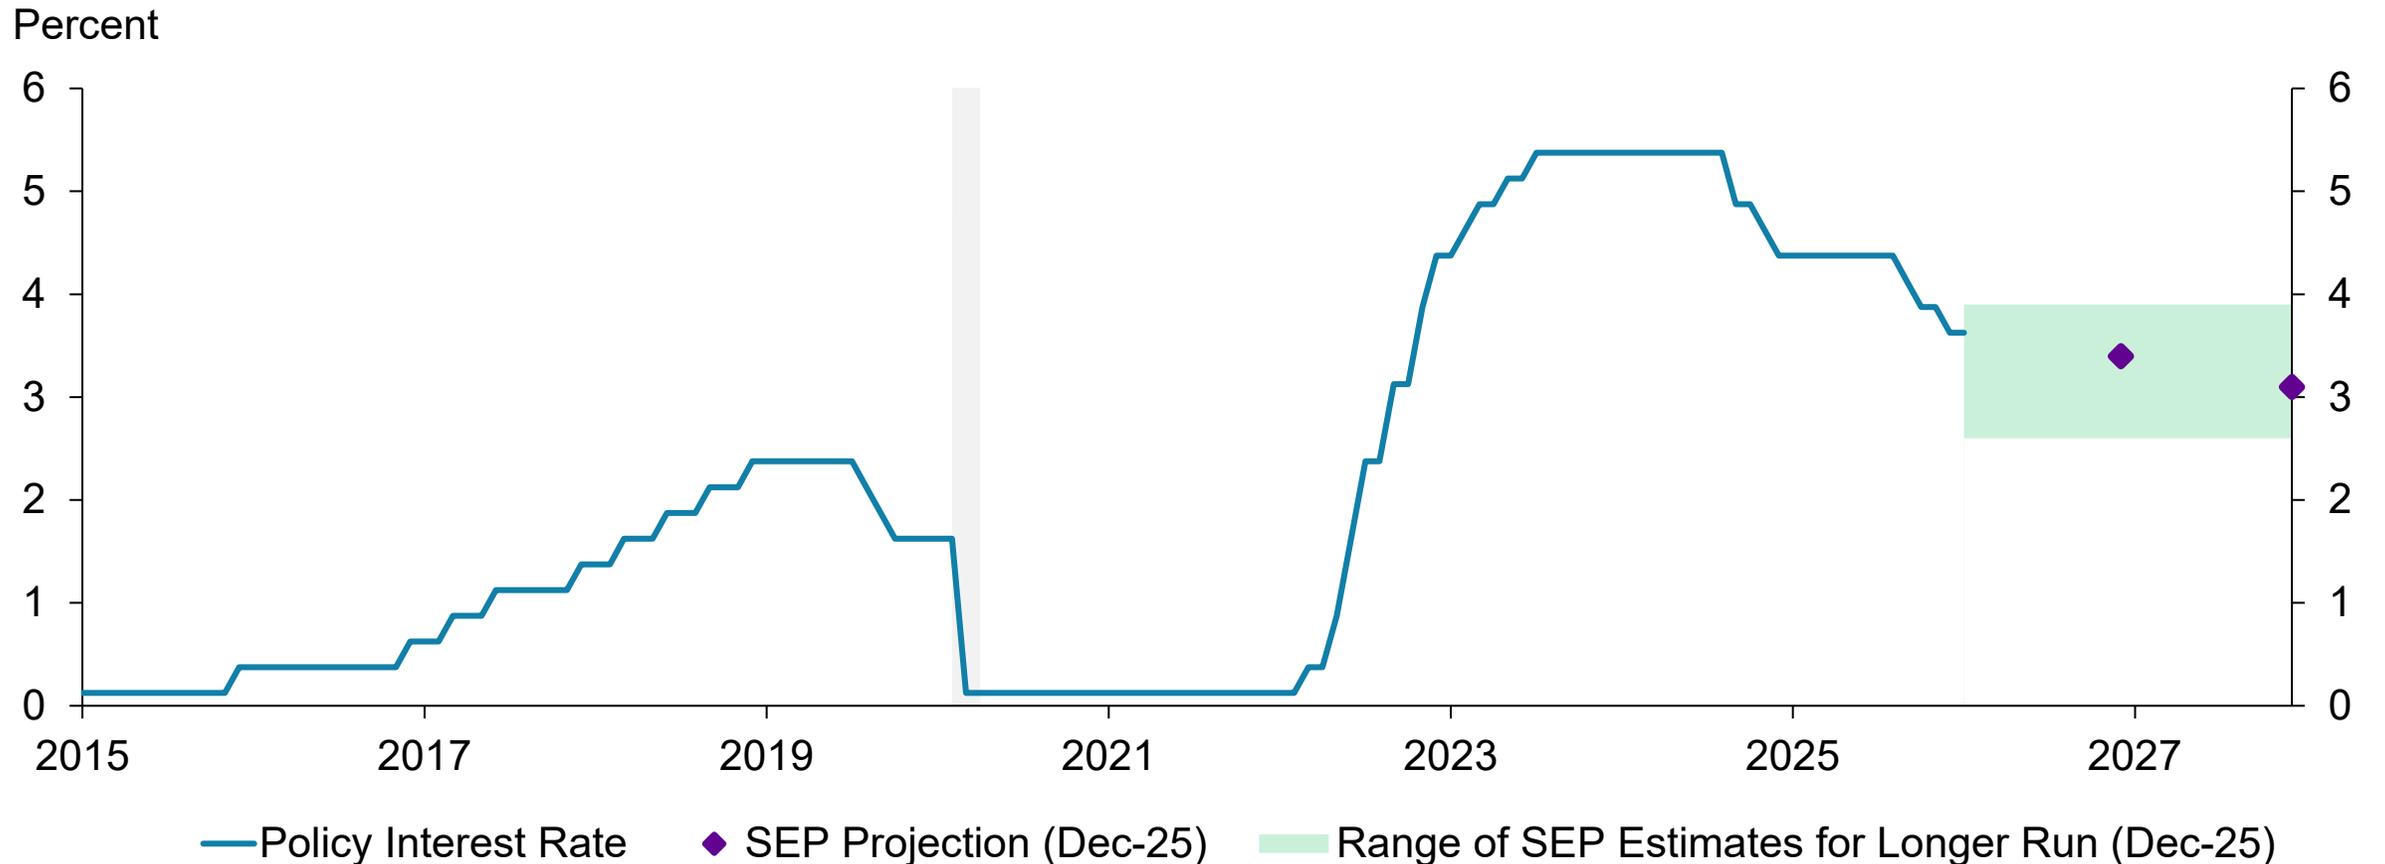

Broad measures like the KC Fed Labor Market Conditions Indicators suggest a stabilizing labor market.

Index, Positive = Above long-run average

Given the stabilization of the labor market and elevated inflation, the FOMC held rates steady in January.
