#### **Change in Real GDP**

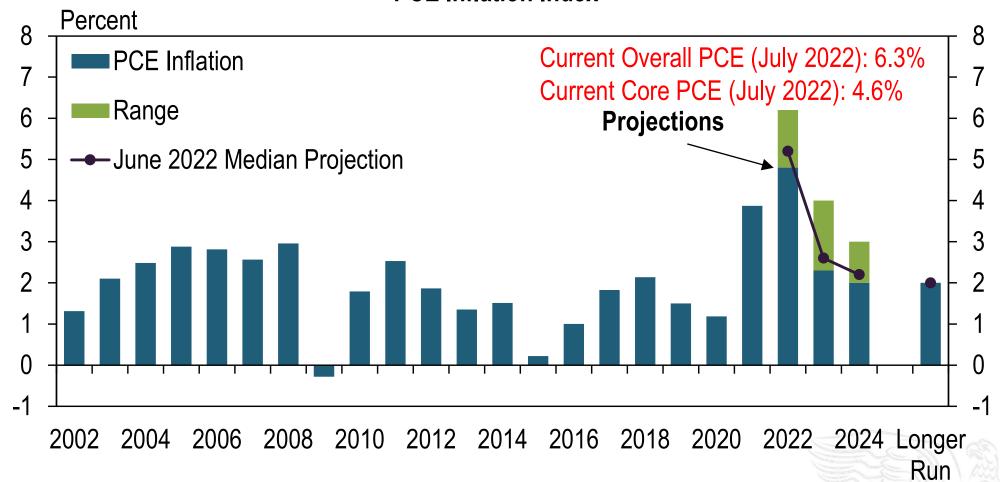

## U.S. unemployment remains historically low and is projected to edge up only slightly in coming years

#### **U.S. Unemployment Rate**

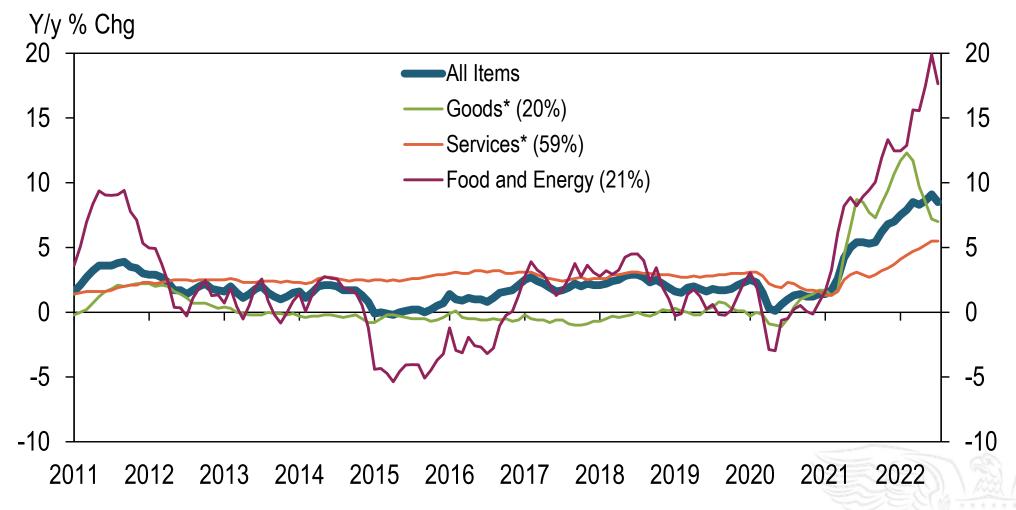

## Meanwhile, inflation has moved well above the Fed's 2% target but is expected to ease heading forward

#### **PCE Inflation Index**

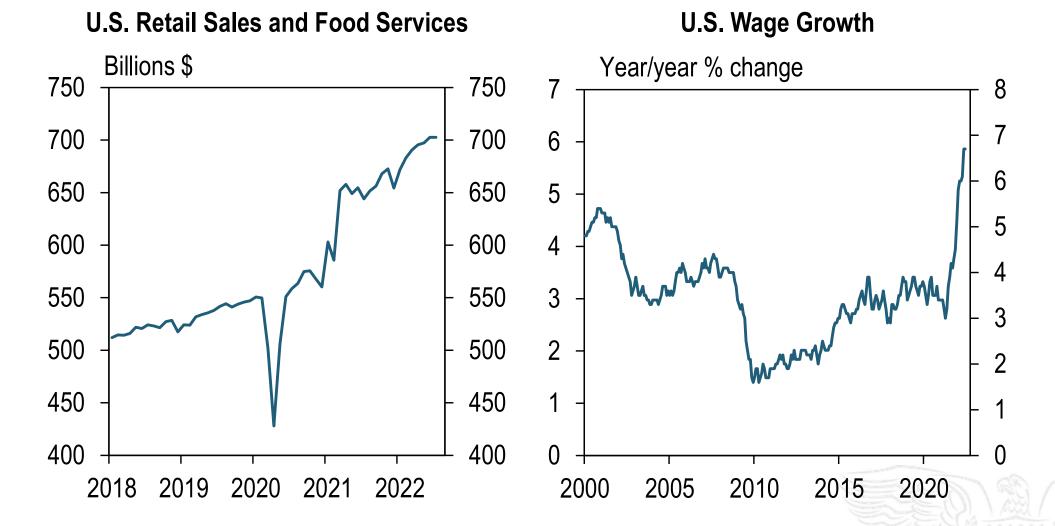

## CPI inflation did ease slightly in July, to 8.5%, as goods inflation continued to drop and food/energy prices fell

#### **Consumer Price Index**

 <sup>\*</sup>Goods excluding Food; Services excluding Energy.
Note: Relative Importance as Share of CPI shown in parenthesis.

## Why is inflation high? Demand has been strong, driven by stimulus, higher wages and higher household wealth

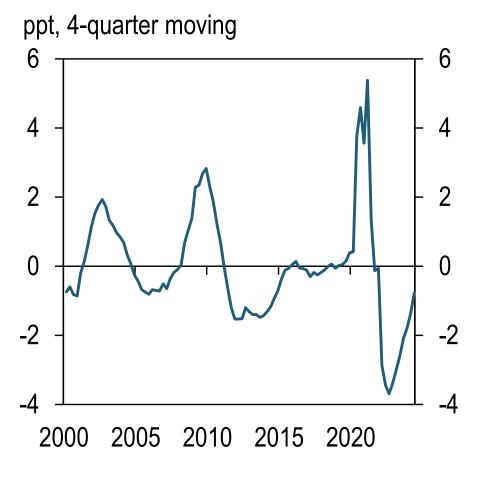

## Why is inflation high? Supply is constrained by a shift in consumption and disruptions to labor supply

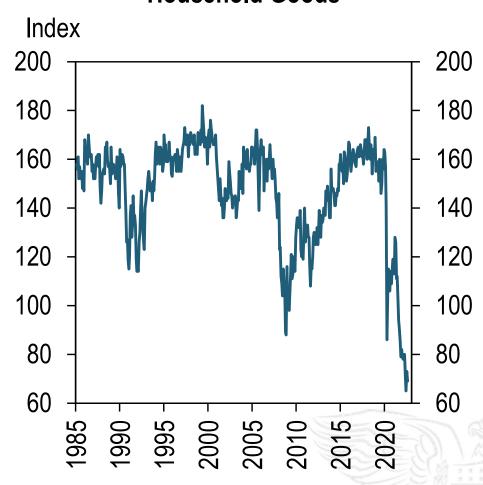

### Where is inflation going? Demand is easing as stimulus fades and consumers react to higher prices

### Fiscal Policy Contribution to Real GDP Growth

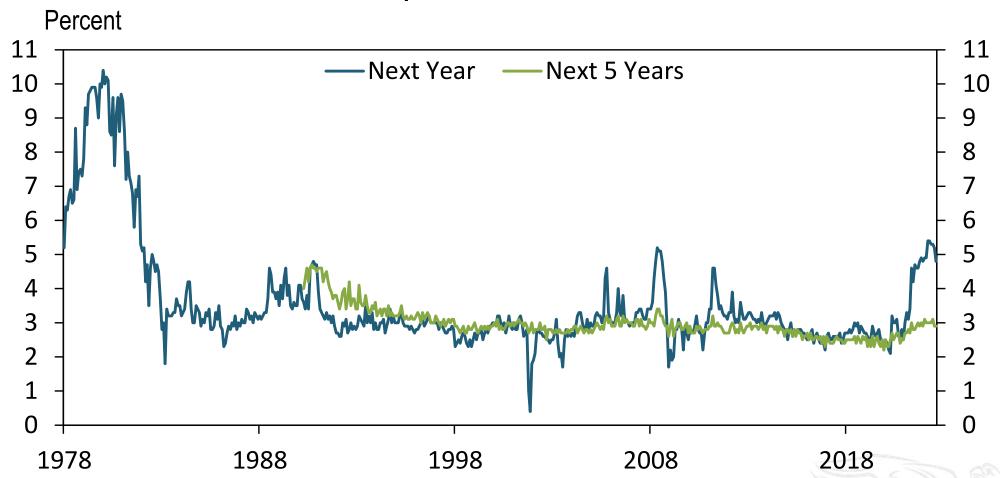

### **Buying Conditions for Large Household Goods**

## Where is inflation going? Longer-term inflation expectations remain relatively low

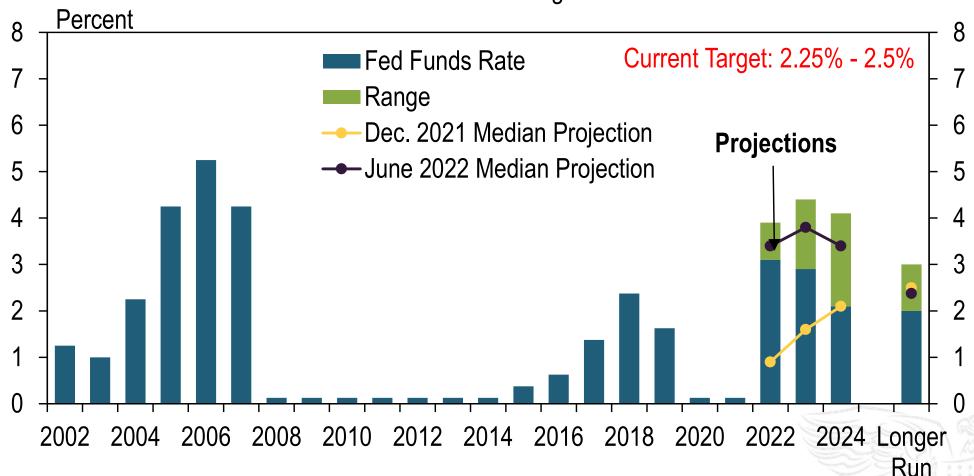

#### **Expected Inflation Rate**

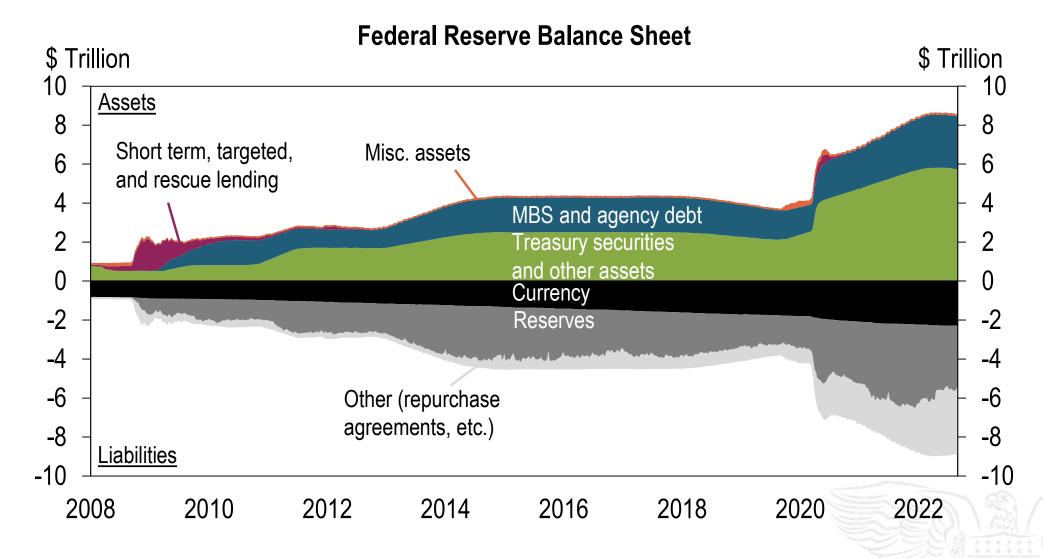

## The Fed raised the federal funds rate target by 75 bp in July, with more increases expected

#### **Federal Funds Rate**

Year-End Target

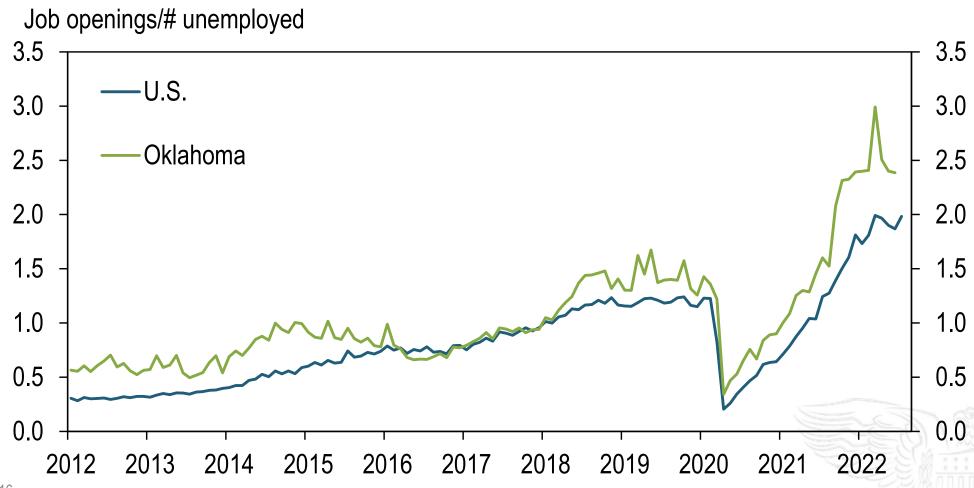

# The Fed has also begun to reduce its balance sheet of securities, further tightening monetary policy

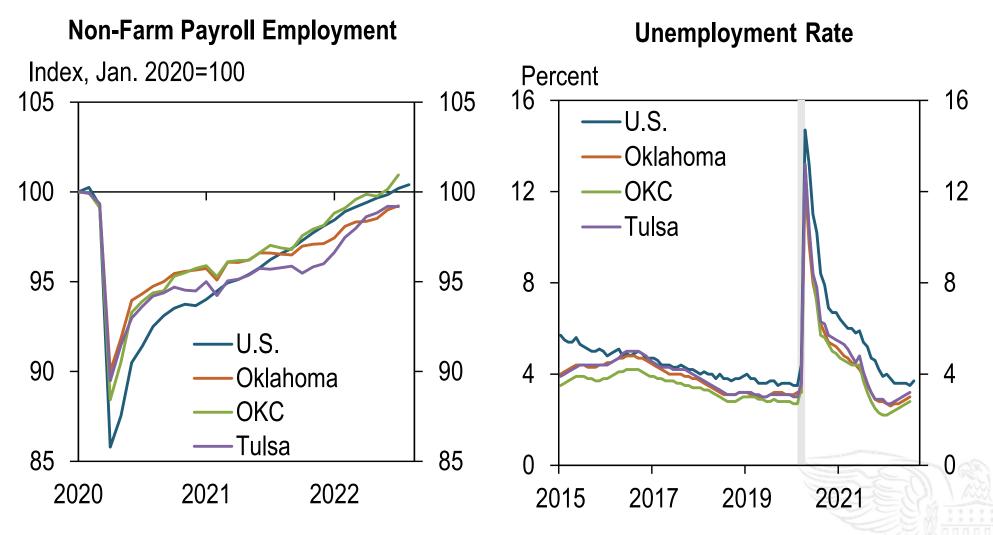

### The number of job openings still greatly exceeds the number of unemployed workers but has leveled off

#### **Job Openings/Unemployment Ratios**

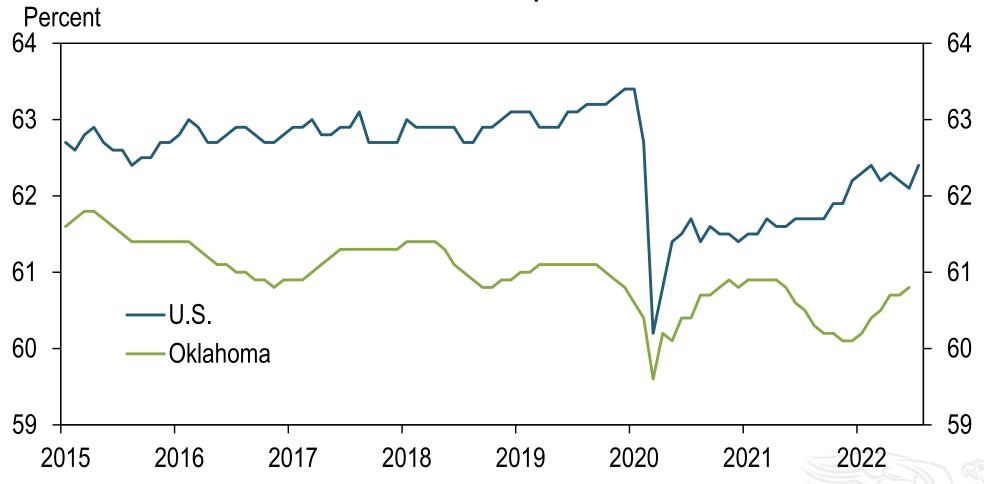

## Jobs in Oklahoma are back to around pre-COVID levels, and unemployment is very low in the state

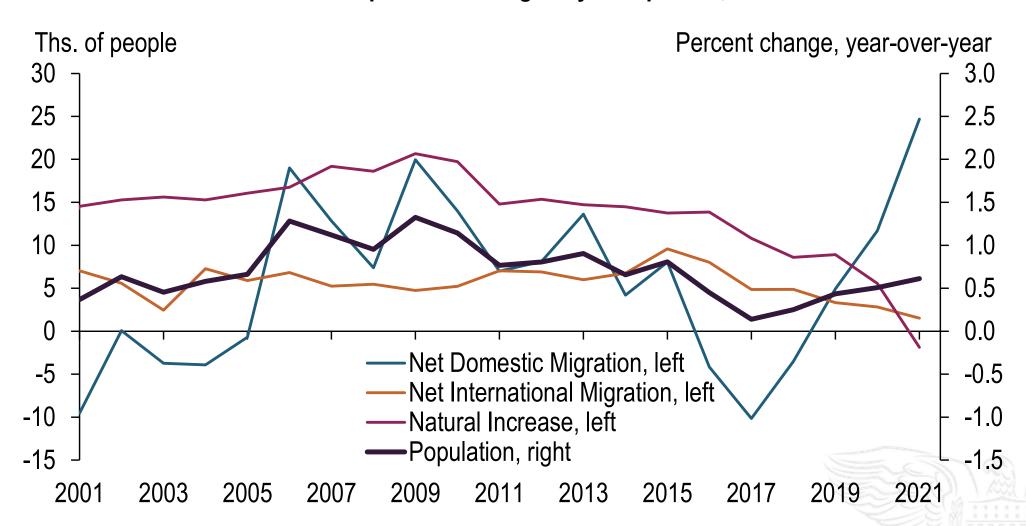

## The Oklahoma labor force participation rate is nearly back to pre-COVID levels, while the U.S. rate still lags

#### **Labor Force Participation Rate**

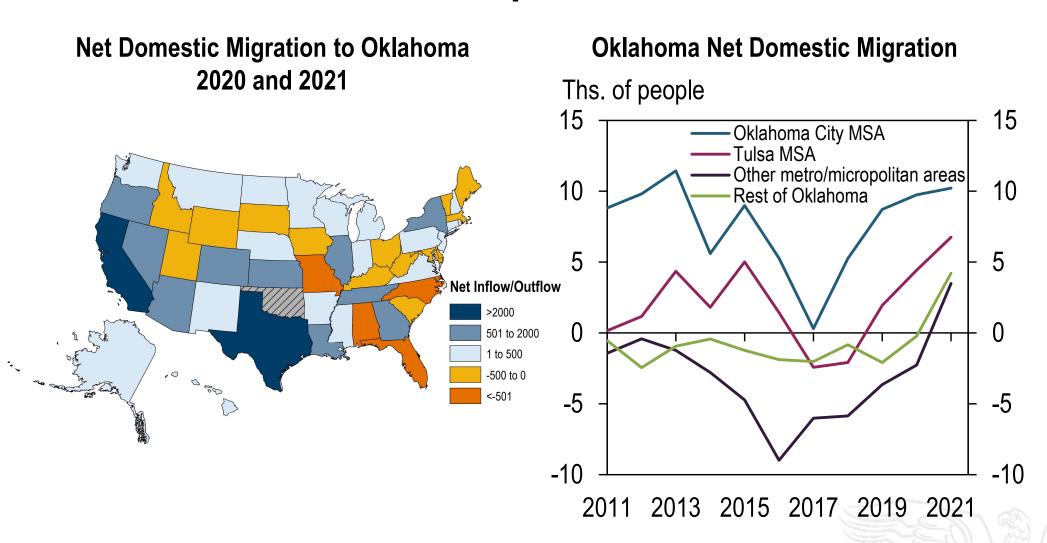

## Oklahoma's population grew in 2021 despite a historic increase in deaths, due to massive in-migration

Oklahoma Population Changes by Component, 2001-2021

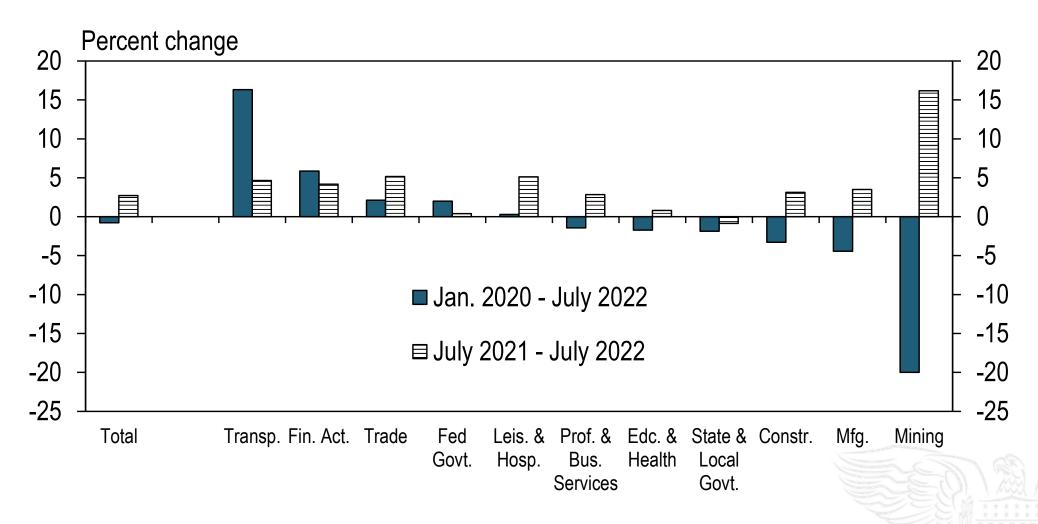

## Many people moved to OK from CA and TX, mostly to the metros but some other parts of the state, too

### All private sectors in Oklahoma have added jobs the past year, but several remain below pre-COVID levels

#### Oklahoma Job Growth by Industry

## Oklahoma employment is still down from pre-pandemic levels in energy and office support-related industries

## OK consumer spending continued to grow in August, while regional factory activity slowed

#### **Oklahoma Consumer Spending**

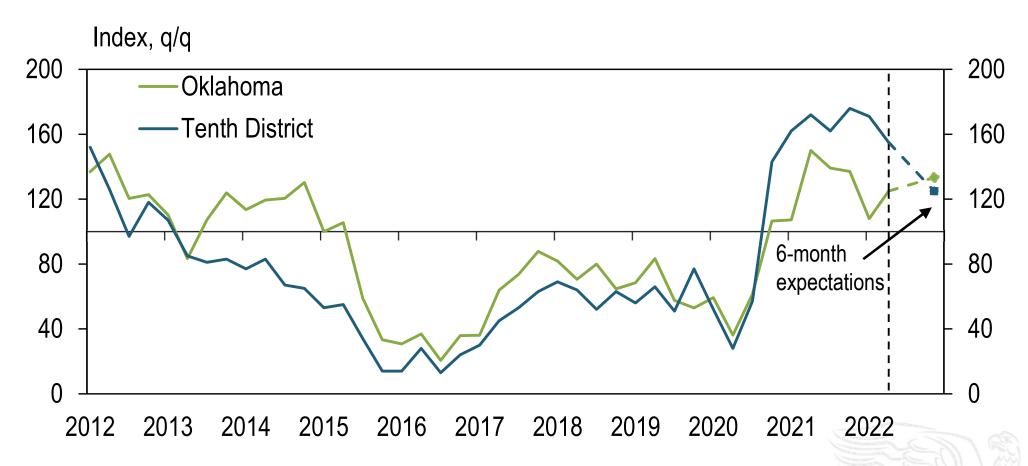

#### **KC Fed Manufacturing Survey**

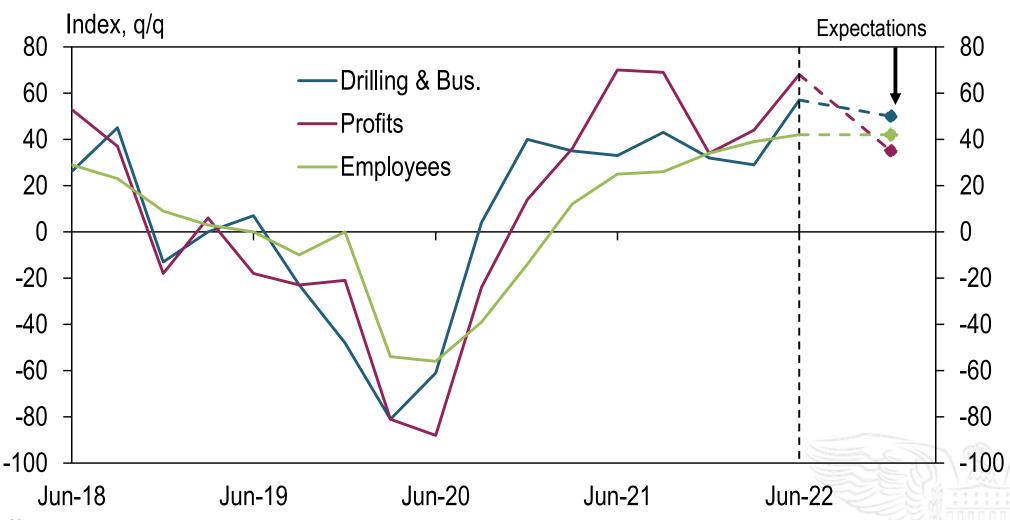

### Oklahoma farm income has been moderately positive since late 2020 but has lagged the rest of the region

#### **Farm Income**

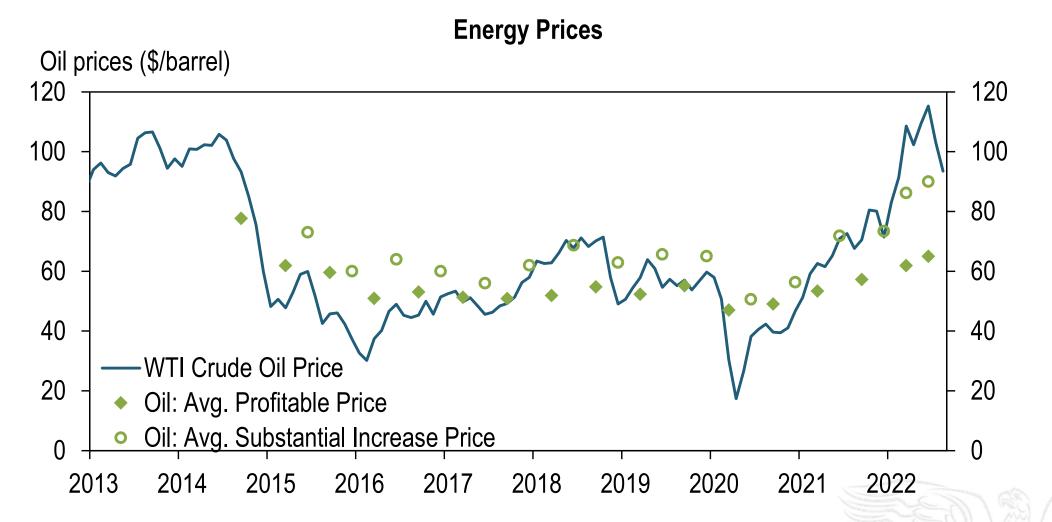

### Energy activity was higher in Q2, and expectations were solid for the second half of the year as well

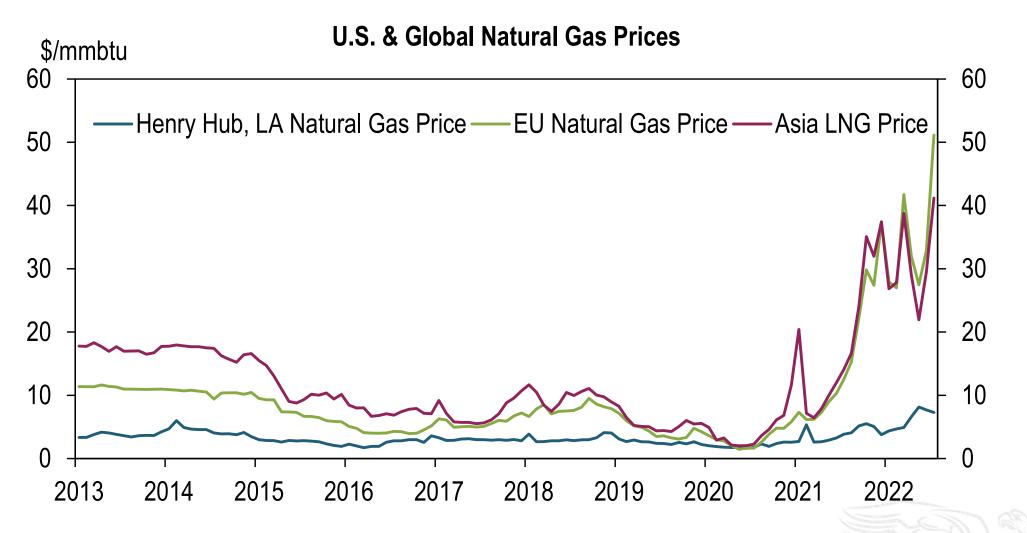

#### **Energy Survey Indexes**

### Oil prices have eased lately but remain profitable for most regional firms

### The sharp rise in U.S. natural gas prices pales in comparison to European and Asian prices

### **Summary**

- U.S. economic indicators are mixed, with strong job growth but sluggish output, while inflation remains too high
- Several factors have boosted inflation over the past year, and several factors should help bring it back down
- Oklahoma's economy continues to recover, but jobs remain below pre-pandemic levels in some sectors, especially energy
- Oklahoma had record in-migration in 2021, helping offset record deaths and hopefully boosting the future workforce
