New Oil Paradigms: 2022 & Beyond

- US is largest oil consumer and producer, no longer a net oil importer
- China is the largest oil importer
- Asia replaces Europe/US as primary customer for OPEC and Russia
- Saudi–Russia, Saudi–China, Russia–China relationships are prominent

Oil Geopolitics: Today & Tomorrow

Figure 2. Russia's crude oil and condensate exports by destination, 2020

- US policy stuck in old paradigms
- Price cap/sanctions on Russian oil
- US–Saudi Rift
- Climate/Environment concerns

Figure 4. Saudi Arabia's crude oil exports by destination, 2020
