**KANSAS CITY, Mo.** - The Federal Reserve Bank of Kansas City released the [June Manufacturing Survey](#) today. According to Chad Wilkerson, vice president and economist at the Federal Reserve Bank of Kansas City, the survey revealed that growth in Tenth District manufacturing activity slowed further but remained positive and expectations for future activity also moderated slightly.

“The pace of regional factory growth slowed further but was still expansionary,” said Wilkerson. “Over 85% of firms reported delays in shipping and product availability as continued negative impacts on their business activity, with around half of firms not expecting any improvements in the next six months.”

A summary of the survey is attached. Historical data, results from past surveys, and release dates for future surveys can be found at <https://kansascityfed.org/surveys/manufacturing-survey/>.

The Federal Reserve Bank of Kansas City serves the Tenth Federal Reserve District, encompassing the western third of Missouri; all of Kansas, Colorado, Nebraska, Oklahoma and Wyoming; and the northern half of New Mexico. As part of the nation’s central bank, the Bank participates in setting national monetary policy, supervising and regulating numerous commercial banks and bank holding companies, and providing financial services to depository institutions.
