KANSAS CITY, Mo. – The Federal Reserve Bank of Kansas City released the [May Manufacturing Survey](#) today. According to Chad Wilkerson, senior vice president at the Federal Reserve Bank of Kansas City, the survey revealed that Tenth District manufacturing activity remained mostly steady, and expectations for future activity also stayed flat.

“Regional factory activity was largely unchanged in May,” said Wilkerson. “Prices cooled significantly over the last month and year and are expected to cool further.”

A summary of the survey is attached. Historical data, results from past surveys, and release dates for future surveys can be found at <https://kansascityfed.org/surveys/manufacturing-survey/>.

The Federal Reserve Bank of Kansas City serves the Tenth Federal Reserve District, encompassing the western third of Missouri; all of Kansas, Colorado, Nebraska, Oklahoma and Wyoming; and the northern half of New Mexico. As part of the nation’s central bank, the Bank participates in setting national monetary policy, supervising and regulating numerous commercial banks and bank holding companies, and providing financial services to depository institutions.
