

Participate in the Kansas City Fed's LMI Survey

February 18, 2021

Sign up to participate in the Kansas City Fed's Low-and-Moderate Income Survey

Who can participate?

Representatives of organizations that directly provide services to low- and moderate-income (LMI) communities.

What does the survey ask?

Based on seven indicators, the point-and-click survey asks how the financial health of your LMI constituents and your organization compares with the past quarter and past year. You also will be asked what you expect to happen to these indicators in the following quarter. In addition, two special topic questions are asked regarding issues in the LMI community.

How often will I be surveyed?

Twice a year, during the first and third quarters of the year. You will receive an email from us each survey period with a link to a secure survey webpage.

How long does the survey take to complete?

Just a few minutes.

What happens to my input?

Aggregate results are published at [the Tenth District LMI Economic Conditions Website](#). This information offers service providers, policymakers and others a gauge to assess changes in the economic conditions of the LMI population over time.

Will I or my organization be identified?

All identifying information is kept confidential.
