Supplementary Leverage Ratio (SLR) used for G-SIBs and advanced approaches LBOs (dashed lines) and Tier 1 Leverage Ratio used for other comparative groups. Advanced approaches banking organizations, which generally have assets greater than $250 billion or on-balance sheet foreign exposures above $10 billion. AA banking organizations (which include a subset of LBOs and all G-SIBs) were required to disclose the SLR as of 1/1/2015 and calculate the Tier 1 leverage ratio under the new regulatory capital rules as of 3/31/2014 (a year earlier than non-AA banking organizations). SLR data from 3/31/2015 to 6/30/2016 were reported in SEC filings and collected by S&P Global Market Intelligence, and thereafter reported in the FFIEC 101. Portfolio groups are established by the federal banking agencies and reflect the group banking organizations were in as of 9/26/2019.
