The Community Development Office of the Federal Reserve Bank of Kansas City developed the Community Development Investments Resource Guide to assist financial institutions with meeting their community development investment needs under the Community Reinvestment Act (CRA). The guide is not intended as a comprehensive listing of all of the investment opportunities available, however, it is a resource to help CRA Officers and Compliance Officers develop and consider their investment options and strategies.

Community development investments must serve low- and moderate-income (LMI) populations and have community development as its primary purpose. Community development includes: affordable housing for LMI individuals; community services for LMI; activities that promote economic development by providing financing for small businesses or small farms; or activities that revitalize or stabilize LMI geographies, distressed or underserved non-metro middle-income areas, or designated disaster areas. Community development activities must benefit the bank’s assessment areas or a broader or statewide regional area that includes the assessment area.
A qualified investment is any lawful investment, deposit, membership share or grant that has community development as its primary purpose. It may be direct or indirect, or through an affiliate. Considerations are given to innovative or complex investments.

When developing the CRA program for your institution, consider the following potential community partners for achieving your community development goals:

- For-profit and nonprofit housing developers for LMI population
- Community housing development organizations (CHDOs)
- Community development financial institutions (CDFIs)
- Community development credit unions (CDCU)
- Nonprofit neighborhood based organizations
- Small business development centers (SBDCs)
- Governmental agencies (city, county, state and federal)
- Foundations
- Secondary mortgage market

Best practice:

- Understand your bank’s CRA performance evaluation criteria
- Assess your bank’s performance context
- Assess your community and its credit needs
- Match bank products and services with community credit needs
- Develop performance, rating goals and objectives
- Review Regulation H/Part 24 – Public welfare (OCC) 12 CFR 24, (Fed) Reg H12 CFR 208.22, (FDIC) 12 CFR 362. Investments that are primarily designed to promote the public welfare under the investment authority.

Examples of community development investments includes, but are not limited to:

- Investments
- Grants
- Deposits or shares in financial intermediaries
- Engagement in affordable housing serving LMI needs
- Small business financing
- Community services for LMI
- Supporting essential activities to sustain economic development
- Low-income housing tax credit developments
