

**Bonnie Colby, Professor of Agricultural and Resource Economics, University of Arizona**

Ms. Colby is a professor at the University of Arizona, where she has been a faculty member since 1983 in the departments of Agricultural and Resource Economics and Hydrology and Water Resources. Her research, teaching and outreach focus on economic trade-offs in water and energy management, climate change adaptation and incentive-based agreements to improve water supply reliability for agricultural, environmental and urban needs.

Ms. Colby has written more than 100 journal articles and eight books. She has testified in her areas of expertise to state legislatures, state and federal courts and the U.S. Congress, and has taught at Harvard University's Kennedy School of Government Executive Training Programs. She works with western states, federal agencies, private firms, water districts and NGOs to develop and implement new strategies to improve water supply reliability and resolve conflicts over water.
