

Bradley Udall, Senior Water and Climate Research Scientist, Colorado State University

Mr. Udall is a senior water and climate research scientist at the Colorado Water Institute at Colorado State University. He has extensive experience in water and climate policy issues, most recently as director of the Getches-Wilkinson Center for Natural Resources, Energy and the Environment and the Western Water Assessment at the University of Colorado in Boulder.

Mr. Udall has written numerous peer-reviewed publications on water management and climate change, which have been published by the federal government and major journals. He has researched water problems on all major southwestern U.S. rivers including the Rio Grande, Colorado, Sacramento-San Joaquin and Klamath. He also has spent six months in Australia studying its recent water reforms.
