Outlook themes

- The outlooks for both the Colorado and U.S. economies are linked to the path of the pandemic, which continues to weigh on the consumption of many services

- Business expectations regarding recovery continue to shift toward longer time horizons

- Inflation pressures remain subdued on net and downward pressures are likely to persist over the medium term
The Federal Reserve deployed a suite of policy actions

**Monetary Policy:**
- Cut policy rate to near zero.
- Forward guidance

**Actions to Improve Market Functioning:**
- Open Market Purchases
- Eased access to discount window.
- Primary Dealer Credit Facility (PDCF)
- Money Market Mutual Fund Liquidity Facility (MMLF)
- Commercial Paper Funding Facility (CPFF)
- Expanded Foreign Central Bank Swap Lines

**Actions to Encourage Bank Lending:**
- Dropped reserve requirements to zero.
- Temporary adjustment to regulations.

**Actions to Support the Flow of Credit:**
- PPP Liquidity Facility (PPPLF)
- Term Asset-Backed Securities Loan Facility (TALF)
- Corporate Credit Facilities (CCF)
- Municipal Liquidity Facility (MLF)
- Main Street Lending Facility
The recent decline in overall U.S. economic activity is unprecedented.
The current economic downturn struck the U.S. and Colorado economies simultaneously.

Note: Grey bars represent recession shading
Consumer services have been the main driver of inflation, and so the low demand for services will likely ease inflation pressures.
Downward price pressures in oil markets are likely to persist
Amid the rise in joblessness, the size of the Colorado labor force declined during the initial months of the pandemic.
Historically, higher unemployment rates coincide with lower housing price growth rates.

Looking forward

- Both the regional and national outlooks remain highly uncertain and tied to the path of the pandemic.
- The FOMC stated that it expects to maintain the current stance of policy until it is confident that economic recovery is on track.
- Contractions in the size of the labor force and constraints on state and local government spending will likely pose risks to recovery for several years.
